

Erika told Pat she had cold feet, but she just meant they should weatherize the house.

Tacoma Power offers up to \$4,600 in rebates as well as zero-interest loans to help you weatherize your home, which includes adding insulation, sealing ducts and replacing old windows with new energy-efficient ones. Calling the energy experts at Tacoma Power to find out how you can weatherize and learn about other energy-saving rebate programs will save you money.

Unfortunately, it can't help your communication.
