One-third of Tacoma's garbage is food and yard waste.

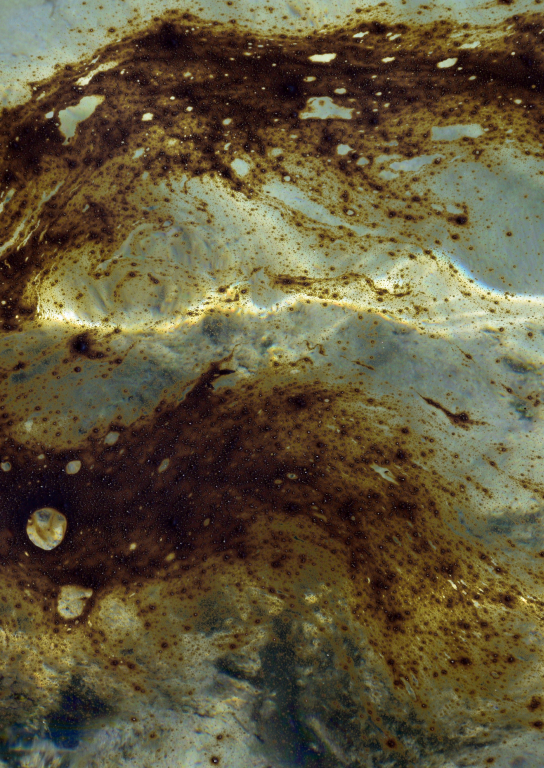

Reducing the amount of food/yard waste you throw away may mean that you can downsize your garbage container-- and that can save you money.

Whether you are a Tacoma resident or a business, you can help reduce the amount of trash going to the landfill by using the City's food and yard waste service. The collected material is then composted at a local composting facility.

Sign up for food/yard waste services by calling Solid Waste at (253) 502-2100.

Protect Tacoma's waters: **REPORT SPILLS**

Help prevent pollution in Puget Sound by reporting the following immediately:

- Oily sheen or colored liquids
- Chemical or sewage smell
- Foam
- Garbage accumulation

Water Pollution Hotline (253) 383-2429

The City of Tacoma's RECYCLING CENTER

Have unwanted items that you would like to recycle or donate? Head over to the Recycling Center at the Tacoma Transfer & Recovery Center (3510 S. Mullen) and dispose of these items at no charge:

- Metal Items: Small scrap metal, aluminum cans & trays, clean foil
- Glass Bottles: Green/blue/brown/clear glass bottles and jars
- Plastics: #3-7 plastic tubs & jars, #2 colored plastic bottles & jugs, #2 milk jugs, #1 soda, juice, & water bottles, plastic bags & bubble wrap, and Styrofoam (only clean, white packing foam)
- Cardboard & Paper: Corrugated cardboard, books for charity, newspapers, magazines, catalogs, phone books, & mixed paper
- Batteries & Other Items: Household alkaline batteries, NiCad, lilon & other rechargeable batteries, cell phones (including batteries and chargers), printer & toner cartridges, used motor oil, holiday lights, & packing peanuts
- Electronics: City of Tacoma partners with E-Cycle Washington to provide recycling of televisions, computers, monitors, tablets, e-readers, & portable DVD players. Bring to the Goodwill Donation Station located at the Recycle Center.

Be a responsible smoker- Trash the butts!

Did you know...

- Cigarette butts are the most littered item in the world.
- 1 in 3 cigarette butts end up as litter.
- Cigarette butts seep toxic chemicals into our environment within hours of contact with water; the toxins released from one cigarette butt left in one gallon of water for one day will kill 80% of aquatic life added to that water.
- Cigarette litter can linger in the environment for as much as 25 years.
