

Power rate adjustment in effect April 1

Providing safe, clean, reliable electricity is fundamental to our community's quality of life. As a not-for-profit, publicly owned utility, we work to ensure you get the most value and quality service you expect.

Starting in 2026, residential customers can expect an average increase of \$7.09 per month. Some factors affecting rates in 2026 include:

Maintaining utility infrastructure with higher costs.

Protecting natural resources near our facilities.

Investing in system improvements.

We know rates affect you. That is why we work hard to keep our costs low, which keeps rates more affordable for everyone in our community.
