

**We've made energy
efficiency good for
your bottom line**

**Replace old or inefficient equipment
with new energy saving models.**

We offer incentives and services to help.

We can help:

- Provide resources to save energy, increase comfort, and improve safety.
- Advise you about equipment upgrades to lower your utility bills.
- Identify incentives to put energy savings back in your pocket.
- Review your utility bills and recommend ways to use less energy.

Incentives may cover up to 100% of costs

Improvements we can help pay for:

- Interior and exterior lighting
- Lighting controls
- New windows and insulation
- Motors and drives
- Heating and cooling systems
- Compressed air systems
- New construction projects
- Industrial processes
- Generator block heaters
- Smart power strips
- Heat pump hot water heaters
- Special custom projects

SAVE ENERGY. SAVE MONEY. IMPROVE YOUR BOTTOM LINE.
