- (1) Tacoma Power Commercial Fiber,
- (2) Tacoma Power Commercial Coax,
- (3) Tacoma Power Commercial Equipment, and
- (4) After-Installed Assets.

(b) In connection with the IRU, Tacoma Power grants Operator a non-exclusive license to use space in the Hub Sites, subject to the terms of Exhibit A3, and a non-exclusive license to use spare conduit space, subject to the terms of Exhibit A4.

(c) In connection with the IRU, Tacoma Power will assign IPv4 addresses to Operator from CIDR 131.191.0.0/17 and 192.173.160.0/20. The IP addresses assigned by Tacoma Power to Operator are dedicated to Operator usage for customers on the Tacoma Power Commercial System and are not shared with others or used on other networks. Tacoma Power reserves certain IP addresses for Tacoma Power's use. Operator shall have exclusive responsibility to advertise above referenced CIDR objects to the public Internet, and allocate Tacoma Power reserved CIDRs. The IP addresses assigned to Operator by Tacoma Power will continue to be proprietary to Tacoma Power. Upon termination of the IRU Agreement, Operator must return Tacoma Power-assigned IP addresses. Operator must also return the IP addresses in the event that Operator has used such addresses in violation of this IRU Agreement or the IP Acceptable Use Policy in Exhibit A5. Operator may return the IP addresses at any time upon notice to Tacoma Power.

(d) In connection with the IRU, Tacoma Power grants Operator a non-exclusive license to use space in the headend site, subject to the terms of Exhibit A6 (Headend License). Further, Tacoma Power sells, conveys, transfers, assigns and delivers to Operator, and Operator purchases from Tacoma Power, the headend equipment installed in above-mentioned headend site and listed in Exhibit A6.2 ("Headend Equipment"), free and clear of all encumbrances, and in an "as is" condition with all faults and without warranties of any kind.

(e) In connection with the IRU, Tacoma Power also sells, conveys, transfers, assigns and delivers to Operator, and Operator purchases from Tacoma Power, the customer premises equipment installed in Click! Business customer premises and listed in Exhibit A7 ("Installed Customer Premises Equipment"), free and clear of all encumbrances, and in an "as is" condition with all faults and without warranties of any kind.

(f) Except for the Tacoma Power Commercial Equipment, the Headend Equipment, and the Installed Customer Premises Equipment, Tacoma Power is not supplying nor is Tacoma Power obligated to supply to Operator any optronics or electronics or optical or electrical equipment or other facilities under this IRU Agreement, all of which are the sole responsibility of Operator, nor is Tacoma Power responsible for performing any work in connection with Operator's use of the Tacoma Power Commercial System other than as specified in this IRU Agreement.

3. OWNERSHIP OF AFTER-INSTALLED ASSETS

(a) (i) Operator intends to finance acquisition of After-Installed Assets in whole or in part through capital lease financing in which the After-Installed Assets are initially the property of the lender. Operator agrees that any After-Installed Assets that it constructs, replaces or upgrades as part of the Tacoma Power Commercial System within the Tacoma Power Commercial Service Area during the Term shall, upon completion of the construction, replacement or upgrade and acquisition of title by Operator pursuant to the terms of the capital lease financing agreement, become the property of Tacoma Power. Operator agrees that it will provide any documents or other evidence of transfer of title to Tacoma Power as may be reasonably required to effect the transfer of ownership. (ii) Operator may, in the alternative, finance After-Installed Assets through conventional bank financing. In that case, Operator agrees that with respect to these After-Installed Assets, Operator will request permission from the lender to transfer ownership to Tacoma Power subject to the security interest of the lender. If lender does not grant such permission, Operator shall transfer ownership of the After-Installed Assets upon removal of the security interest of the lender. (iii) Operator shall give a copy to the City of any notice from the lender of Operator's default under any financing agreement encumbering any After-Installed Assets as soon as practicable, but no later than five (5) days of Operator's receipt of such notice; provided further that, Operator shall upon knowledge of lender's transfer of any such financing agreements, immediately provide notice to the City of such transfer.

(b) Operator will own any asset it acquires during the Term of this IRU Agreement that is not an After-Installed Asset.

4. TERM

(a) **Initial Term.** This IRU Agreement commences as of the Effective Date and remains in full force and effect for a term (i) expiring twenty (20) years from the Effective Date of this IRU Agreement (the "**Initial Term**"), unless earlier terminated pursuant to the terms of this IRU Agreement.

(b) **Renewals.** This IRU Agreement may be renewed upon the same terms and conditions for up to two additional terms of ten (10) years each (each a "**Renewal Term**") according to the process set forth in (c) below. The "**Term**" shall be inclusive of the Initial Term and any Renewal Terms.

(c) **Procedure.** In order to terminate this IRU Agreement, Operator must send Tacoma Power a notice of non-renewal no greater than twenty-four (24) and no less than eighteen (18) months prior to the expiration of the Initial Term or, if already renewed, of the first Renewal Term ("**Non-Renewal Notice Window**"). If Operator sends no notice of non-renewal during the Non-Renewal Notice Window, Operator agrees to give Tacoma Power full access to information and facilities sufficient for Tacoma Power to determine Operator's compliance with this IRU Agreement during the Term then concluding ("**Compliance Evaluation**"). Tacoma Power shall complete the Compliance Evaluation no later than twelve (12) months prior to expiration of the then-current Term,

and promptly provide a copy of the Compliance Evaluation to Operator, along with a Notice of Default, if warranted, with respect to any and all Defaults of this IRU Agreement, then existing. In the event that the Parties are unable to resolve all Defaults pursuant to Section 24, or if Operator does not invoke Section 24, Operator must cure such Defaults no later than six (6) months prior to the expiration of the then-current Term. In the event that Operator cannot or will not cure such Defaults to Tacoma Power's satisfaction within such period, Tacoma Power may elect not to renew this IRU Agreement by giving a notice of termination in writing and this IRU Agreement shall terminate at the end of the then-current Term; provided that such notice of termination may only be given by Tacoma Power after completing the process in Section 21(g).

5. PAYMENT TERMS

(a) **IRU Fee.** Operator agrees to pay to Tacoma Power an annual fee ("**IRU Fee**") in accordance with the following amounts:

First Year of the Term:	\$2,500,000
Second Year of the Term:	\$2,625,000
Third Year of the Term:	\$2,750,000
Fourth Year of the Term:	\$2,875,000
Fifth Year of the Term:	\$3,000,000

Each subsequent year of the Term following the Fifth Year, the IRU Fee shall be adjusted on the anniversary of the Effective Date to reflect the Consumer Price Index Increase. If there is no Consumer Price Index Increase (i.e., there is deflation during the relevant period), there shall be no reduction in the IRU Fee from the prior year.

(b) **Schedule.** Commencing on the Effective Date, Operator shall pay the IRU Fee, together with any applicable leasehold excise taxes, to Tacoma Power on a monthly basis in twelve (12) equal instalments in each of the first three (3) years of the Term, and on a quarterly basis in four (4) equal instalments for each year of the Term thereafter. Invoices for any other amounts due to Tacoma Power under this IRU Agreement or the Exhibits (for example, for splicing services performed by Tacoma Power for Operator pursuant to **Exhibit B**) will be sent separately from time to time.

(c) **Due Date.** Unless otherwise specifically stated elsewhere, Operator will tender payment for the IRU Fee in advance on the fifteenth (15th) day of the month for the installment period in which the IRU Fee payment is due. Any other amounts due to Tacoma Power under this IRU Agreement or the Exhibits shall be paid within thirty (30) days of the date that Operator receives the invoice ("**Due Date**").

(d) **Late Payment Fee.** A late payment fee of Ten Percent (10%) per annum shall apply to all undisputed fees received after the Due Date.

(e) **Disputed Billing.** In the event Operator disputes any billing by Tacoma Power, Operator will (a) pay all charges not disputed, and (b) notify Tacoma Power of the dispute in writing, providing the invoice number and an explanation of the issue in dispute, within thirty (30) days of receipt of the disputed invoice. Tacoma Power will

advise Operator of the results of the completed investigation and will make any adjustments mutually agreed to by the Parties. If the Parties are unable to resolve the billing dispute within such 30-day period, the Parties will attempt to resolve the dispute pursuant to Section 24 (Senior Representatives - Dispute Resolution). Payment will not prejudice Operator's right to dispute charges, so long as they are disputed in the manner specified in this Section. If both Parties agree that a disputed amount is a legitimate charge or the charge is determined to be legitimate under Section 24, Operator will pay such amount within ten (10) days of such determination. Pending resolution of the issues(s), Operator's non-payment of the disputed items shall not constitute Default by Operator and shall not entitle Tacoma Power to exercise any rights it may otherwise have to suspend or delay its obligations under this IRU Agreement or pursue any right or remedy it may have under this IRU Agreement, at law or in equity.

(f) **Taxes and Accounting.** Operator shall pay before delinquency all applicable leasehold excise, gross earnings, business and occupation and other applicable Taxes, assessments, licenses and charges on its use and operations of the Tacoma Power Commercial System for which an exemption is not available. If leasehold excise tax is applicable, Operator shall remit the amount of leasehold excise tax then due and owing concurrent with its payment of the IRU Fee to Tacoma Power. Operator is responsible for the payment of all charges and Taxes applicable to the services performed under this IRU Agreement, and Operator agrees to comply with all applicable laws regarding the reporting of income, maintenance of records and all other requirements and obligations imposed pursuant to applicable law. If Tacoma Power is assessed, made liable or responsible in any manner for such charges or Taxes, Operator holds Tacoma Power harmless from such costs, including attorneys' fees.

(g) **Tax Exemption.** When applicable, for any request of exemption from Taxes, Operator will furnish Tacoma Power a valid and properly executed tax exemption/resale certificate(s), including copies of such supporting documentation as may be reasonably requested by Tacoma Power for purposes of compliance with its legal obligations to taxing and regulatory authorities. Tacoma Power will not bill Operator for any Taxes covered by an exemption/resale certificate or any Taxes relating to or arising out of Tacoma Power's indemnification obligations herein.

(h) **Audits.** Operator and Tacoma Power agree to make reasonable efforts to cooperate with each other and coordinate their mutual efforts concerning audits, or other such inquiries, filings, reports, etc., as may relate solely to activities or transactions arising from or under this IRU Agreement, which may be required or initiated by Operator or Tacoma Power as a result of an inquiry or audit from any duly authorized governmental authority relating to Taxes.

6. CONTRACT ADMINISTRATION

(a) **Single Point of Contact.** To facilitate the timely and compliant performance of the obligations in this IRU agreement and Exhibits, the Parties shall each appoint a representative that shall serve as the primary contact person and contract administrator.

(b) **Authorities of the TPU Contract Administrator.** The TPU Contract Administrator shall have the authority to administer this IRU Agreement and Exhibits with respect to the rights, duties and obligations of Tacoma Power, including but not limited to the following:

- (1) Determine the form of certifications and reports required by this IRU Agreement and the Exhibits.
- (2) Investigate Controversies and Defaults, and issue Notices of Default and Compliance Evaluations.
- (3) Accept and review reports and certifications for completeness.
- (4) Schedule and attend status review meetings.
- (5) Order tests and verification procedures to be performed as required by this IRU Agreement.
- (6) Develop and sign off on compliance plans.
- (7) Make determinations to assess or waive liquidated damages.
- (8) Make a determination if a Tacoma Power Force Majeure Event has occurred.

(c) **Annual Report.** Each year on the Annual Reporting Date, Operator shall provide a report to Tacoma Power and the City of Tacoma City Council of its operations, the status of the Tacoma Power Commercial System and the state of the 12 policy goals adopted by the Utility Board and City Council ("**Annual Report**"). The Annual Report shall include, at a minimum, the annual reports and certifications specified by the Exhibits and listed for convenience in the checklist in **Exhibit R**.

(d) **Liquidated Damages.** Unless otherwise specified in this IRU Agreement or Exhibits, Operator shall submit the Annual Report on the Annual Reporting Date. In the event that Operator fails to timely provide the Annual Report required by Section 6(c), Operator shall pay Tacoma Power liquidated damages in the amount of Two Thousand Five Hundred Dollars (\$2500.00) per day until it has provided such Annual Report.

(e) **Status Review Meetings.** In addition to any other obligations to meet set forth in this IRU Agreement, on a periodic basis to be mutually agreed by the Parties, but not less than once annually, Operator and Tacoma Power will meet to review Operator's operations, the status of the Tacoma Power Commercial System and the state of the commitments to the 12 policy goals adopted by the Tacoma City Council as embodied in various Exhibits to this IRU Agreement.

7. TACOMA POWER UNDERLYING RIGHTS

(a) Operator shall indemnify, defend and hold harmless Tacoma Power, its officials, officers, agents, employees and volunteers, from any and all claims, demands, damages, lawsuits, liabilities, losses, liens, expenses and costs arising out of the subject matter of this IRU Agreement; provided that this provision shall not apply to the extent that damage or injury results from the sole negligence of Tacoma Power, or its officers, agents or employees. This indemnification shall extend to and include attorneys' fees and the cost of establishing the right of indemnification hereunder in favor of Tacoma Power. This indemnification shall survive the termination of this IRU Agreement.

(b) Operator specifically assumes potential liability for actions brought by its own employees against Tacoma Power and, solely for the purpose of this indemnification and defense, Operator specifically waives any immunity under the state industrial insurance law, Title 51 RCW. 19. LIMITATION OF LIABILITY

(a) **DIRECT DAMAGES ONLY.** IN NO EVENT WILL EITHER PARTY BE LIABLE TO THE OTHER PARTY (OR ANY INDIVIDUAL OR ENTITY CLAIMING THROUGH SUCH PARTY) FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES OF ANY KIND OR NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS, LOST REVENUES, LOST SAVINGS, LOSS OF DATA OR HARM TO BUSINESS.

(c) **NO LIMIT.** IN NO EVENT SHALL THIS SECTION (I) LIMIT ANY INDEMNIFICATION OBLIGATIONS FOR CLAIMS BASED ON DAMAGE CAUSED THROUGH WILLFUL MISCONDUCT OR GROSS NEGLIGENCE OR (II) SERVE AS A LIMITATION ON ANY INSURANCE EITHER PARTY IS REQUIRED UNDER THIS IRU AGREEMENT TO PROVIDE FOR.

20. INSURANCE

Operator will maintain insurance coverages in the amounts and in the manner specified in the City of Tacoma Insurance Requirements. The City of Tacoma Insurance Requirements documents are attached hereto as **Exhibit Q.**

21. DEFAULT AND TERMINATION

(a) **Communication and Discussion.** The Parties are fully committed to working with each other throughout the Term of this IRU Agreement, and agree to communicate regularly with each other at all times so as to avoid or minimize disputes, differences of opinion or controversies (each a "**Controversy**") arising in connection with this IRU Agreement. The Parties agree to act in good faith to prevent and resolve potential sources of conflict before they escalate into a Controversy and shall attempt to resolve Controversies arising in connection with this IRU Agreement through good faith discussions between the contract administrators of both Parties to arrive at an agreeable resolution. In the event that the contract administrators are unable to resolve a Controversy after at least one discussion and the Controversy is alleged to be a default of an obligation under this IRU Agreement, the Party asserting the default may issue a Notice of Default as provided for in this IRU Agreement.

(b) **Defaults.** If either Party fails to perform an obligation under this IRU Agreement or an Exhibit (“**Default**”), the other Party may consider the non-performing Party to be in Default unless the Default is excused by a Force Majeure Event.

(c) **Notice of Default.** Unless otherwise provided in this IRU Agreement, or an exhibit thereto, the non-defaulting Party may assert a Default claim by giving the defaulting Party a written and detailed notice of default (“**Notice of Default**”). Unless the defaulting party timely submits a written request for dispute resolution pursuant to Section 24 of this IRU Agreement, the defaulting Party will have thirty (30) days after receipt of the Notice of Default to either (i) cure such Default and provide written evidence of such cure; or (ii) submit a proposed compliance plan to correct the Default, if the defaulting Party believes in good faith that it will not be able to cure said Default within such timeframe; provided that, the time period to cure or submit a proposed compliance plan shall be limited to ten (10) days for a Notice of Default alleging a failure to timely provide a report or certification listed on Exhibit R. The contents of the compliance plan shall specify the steps that the defaulting Party will take to correct the Default and bring itself into compliance with its obligations and the time period over which the correction will occur. The non-defaulting Party will review the proposed compliance plan and the Parties will work in good faith to mutually agree on its final contents and timeframe for implementation within a further thirty (30) days from receipt by the non-defaulting Party. The non-defaulting Party must act reasonably in determining whether a cure plan is acceptable and must make good faith and collaborative efforts to agree upon a mutually acceptable cure plan. The defaulting Party will begin implementing the cure plan immediately after receipt of notice by the other Party that it approves the cure plan. In the event that the Parties are unable to mutually agree upon a compliance plan, either Party may invoke the dispute resolution procedures in Section 24 of this IRU Agreement.

(d) **Action on Failure to Cure.** Subject to the provisions of Section 24 of this IRU Agreement, upon the failure by the defaulting Party to cure any Default within the time specified in paragraph (c), the non-defaulting Party may, except as may be otherwise provided in this IRU Agreement: (i) assess liquidated damages as provided in this IRU Agreement, (ii) pursue any other remedies it may have under this IRU Agreement, applicable law or in equity relating to such Default; and (iii) suspend or delay performance of its obligations under this IRU Agreement.

(e) **Compensation for Prior Performance.** Notwithstanding the foregoing, no termination of this IRU Agreement shall affect the rights or obligations of any Party hereto with respect to any payment hereunder for performance rendered, refunds, or set-offs accruing or due prior to the effective date of termination.

(f) **Survival of Certain Provisions.** The expiration or termination of this IRU Agreement, including due to non-renewal, will not affect the rights or obligations of either Party hereto with respect to matters or claims arising or accruing prior to or as of expiration of this IRU Agreement, or pursuant to any other provisions of this IRU Agreement that, by their sense and context, are intended to survive the expiration or termination of this IRU Agreement, including but not limited to Indemnification,

Limitation of Liability, Taxes, Confidentiality and Continuity of Service Commitments
(Exhibit O).

(g) **Termination.** In the event that the Parties are unable to resolve a Default pursuant to the provisions of Section 24 and the Default is one for which termination is a remedy under this IRU Agreement, the non-defaulting Party may give notice of its intent to terminate this IRU Agreement upon a date set forth in the notice which date shall be no less than one hundred eighty (180) days following the date of receipt of the notice; provided that:

(1) Tacoma Power, shall prior to giving notice of intent to terminate complete the following process:

(i) The Public Utility Board shall determine if termination of this IRU Agreement is, in the opinion of the Board, warranted. The Public Utility Board may consider such facts and circumstances that are relevant to the Default when determining whether or not to terminate this IRU Agreement.

(ii) If the Public Utility Board determines that termination is warranted, such determination shall not be final until the City Council concurs in the decision of the Public Utility Board. The Parties acknowledge that a decision to terminate this IRU Agreement is not a land use decision subject to appeal pursuant to the Land Use Petition Act (Chapter 36.70C RCW).

(2) Any notice of termination given by Operator shall be signed by its manager.

(h) **Uncured Default.** In the event that any Default remains uncured one hundred eighty (180) days after a Notice of Default has been issued, and the uncured status is not excused as a Force Majeure Event, or because the Parties are engaged in arbitration, dispute resolution, implementation of a compliance plan or other mutually agreed resolution of the Default, the non-defaulting Party shall have the right to give notice to terminate this IRU Agreement pursuant to Section 21(g) of this IRU Agreement.

22. LIQUIDATED DAMAGES

(a) **Liquidated Damages as a Remedy.** The Parties explicitly represent that it will be impractical and/or difficult to ascertain or quantify the amount of damages which may be incurred by Tacoma Power as a result of the failure by Operator to comply, or maintain compliance, with certain provisions of this IRU Agreement or the Exhibits as enumerated therein, and further acknowledge and agree that Tacoma Power will be damaged as a result of such non-compliance. Therefore, Tacoma Power and Operator agree that the liquidated damages set forth in the enumerated provisions of this Agreement and the Exhibits are reasonable estimates of the damages resulting from non-compliance of those provisions of this IRU Agreement or Exhibit.

(b) **Exclusive Remedy.** If a Party exercises its right to impose liquidated damages, such damages shall be the Party's sole and exclusive remedy for recovery of the loss resulting from such non-compliance. Nothing in this subsection is intended to preclude the Party from exercising any other right or remedy with respect to other losses not compensated by liquidated damages.

(c) **Adjustment.** The Parties agree that all liquidated damages specified herein shall be adjusted annually on the anniversary of the Effective Date to reflect the Consumer Price Index Increase. If there is no Consumer Price Index Increase (i.e., there is deflation during the relevant period), there shall be no reduction in the liquidated damages from the prior year.

(d) **Assessment of Liquidated Damages.** The Parties agree that liquidated damages may be assessed as a remedy only in the event that the Party in Default has failed to cure in conformance with Section 21(c) of this IRU Agreement or the Parties have been unable to resolve the Default pursuant to the dispute resolution provisions of Section 24 of this IRU Agreement. In the event that liquidated damages are assessed as a remedy under this IRU Agreement against a defaulting Party in connection with a Default pursuant to this IRU Agreement, the non-defaulting Party shall send the defaulting Party an invoice specifying the amounts assessed and the time period subject to assessment of liquidated damages, which may not include any period prior to delivery of the Notice of Default that is the subject of assessment of liquidated damages.

23. **SPECIFIC PERFORMANCE**

In recognition that the IRU cannot be readily obtained in the open market, and a suitable Successor Operator may not be readily available, and therefore, that the Parties will be irreparably injured if this IRU Agreement cannot be specifically enforced, each Party shall be entitled, in addition to bringing suit at law or equity for monetary or other damages, to obtain specific performance to order implementation of the IRU contemplated by this IRU Agreement. In any action to enforce the provisions of this IRU Agreement, the Parties both hereby irrevocably and forever waive the defense that there is an adequate remedy at law and hereby irrevocably agree that the other Party shall have the right to obtain specific performance of the obligations contemplated by this IRU Agreement.

24. **DISPUTE RESOLUTION**

In the event that a Party has issued a Notice of Default and the defaulting Party disputes that it is in Default, such defaulting Party shall, within ten calendar days of receipt of said notice, submit to the other Party a written request for dispute resolution. Upon receipt of a timely request for dispute resolution, the cure period in the Notice of Default is tolled. Each Party shall designate a senior representative ("**Senior Representative**") and the Senior Representatives for the Parties shall meet as soon as conveniently possible, but in no case later than thirty (30) days after such a request is made, to attempt to resolve the Controversy. Prior to any meetings between the Senior Representatives, the Parties will exchange relevant information that will assist the Parties in resolving the dispute. If the

dispute cannot be resolved through dispute resolution within a reasonable time, not to exceed thirty (30) days, then the Parties shall be free to, (i) assess liquidated damages as provided in this IRU Agreement, (ii) pursue any other remedies it may have under this IRU Agreement, applicable law or in equity relating to such Default; and (iii) suspend or delay performance of its obligations under this IRU Agreement.

25. GOVERNING LAWS

Any action related to this IRU Agreement shall be governed the laws of the State of Washington (except that body of law controlling conflict of laws) and the United Nations Convention on the International Sale of Goods will not apply. Any suit or proceeding arising out of or relating to this IRU Agreement will be brought in the applicable federal or state court located in Pierce County, Washington, and each Party irrevocably submits to the jurisdiction and venue of such courts.

26. RELATIONSHIP OF THE PARTIES

The relationship between the Parties will not be that of partners, agents or joint venture parties for one another, and nothing contained in this IRU Agreement will be deemed to constitute a partnership or agency agreement between them for any purposes, including, but not limited to, tax purposes. No employment relationship is created by this Agreement. Neither Party will make any commitment, by contract or otherwise, binding upon the other or represent that it has any authority to do so. In performing any of their obligations hereunder, each Party will be an independent contractor or independent Party and shall use its discretion in discharging its contractual obligations at its own risk.

(b) Any delegation or subcontracting by Operator will not operate to relieve Operator of its responsibilities and obligations under this IRU Agreement.

31. FORCE MAJEURE EVENT

(a) **Performance Excused by Force Majeure Event.** Neither Party will be deemed in violation of any provision of this IRU Agreement if it is prevented from performing any of the obligations under this IRU Agreement (excluding payment obligations) in whole or in part by reason of any event or circumstance, or combination of events or circumstances, arising after the Effective Date and beyond the reasonable control of, and not the result of the negligent or intentional actions or omissions of, or caused by, the Party that seeks to excuse, in whole or in part, that Party's performance of this IRU Agreement and its obligations hereunder, and that is unavoidable or could not be prevented or overcome by the reasonable efforts and due diligence, (a "**Force Majeure Event**"). In such event, subject to Section 30(b), the non-performing Party shall be excused from further performance of the obligation(s) so affected for as long as such circumstances prevail and such Party continues to use reasonable efforts to recommence performance whenever and to whatever extent possible without delay. In the event of a Force Majeure Event, unless otherwise specified in an applicable Exhibit, the non-performing Party's performance obligation shall be extended on a day by day basis. (a) Operator shall not access splice panels or fiber access points for Tacoma Power Commercial Fiber on Critical Routes. Rather, Tacoma Power will provide qualified staff to Operator upon request to provide splicing services and services for removal or replacement of fiber/coax cable in conduit on Critical Routes.

(b) If Operator chooses to build new splicing access points for its own use for Tacoma Power Commercial Fiber on Critical Routes so as to separate Tacoma Power Commercial Fiber access points from Tacoma Power Utility Fiber access points, Tacoma Power will provide qualified staff to provide this construction service to Operator upon request.

(d) Operator will be invoiced for splicing services based on the price schedule in Section 5 of this Exhibit and shall pay invoices within thirty (30) days of receipt.

4. WORK IN ENERGIZED VAULTS

(a) For safety and regulatory compliance reasons, only qualified Tacoma Power staff may access Tacoma Power Commercial Fiber splice cases that are contained within energized vaults (estimated as approximately 4% of total access points in the Tacoma Power Commercial System). In the event that Operator needs to access assets in energized vaults, Tacoma Power will provide qualified staff to provide access services to Operator upon request.

(b) All requests for access pursuant to this Section 4 shall be in writing and provide at least five (5) Business Days' notice of the desired access date. Access will be provided at a time of mutual agreement between Tacoma Power and Operator.

(c) Operator will be invoiced for access services based on the price schedule in Section 5 of this Exhibit and shall pay invoices within thirty (30) days of receipt.

5. TACOMA POWER'S PRICE SCHEDULE

The rates described below are for work performed in 2019. All amounts listed below are calculated using Tacoma Power's 2019 SAP loaded rates with equipment and materials. The Parties recognize and agree that Tacoma Power may adjust the below amounts periodically to reflect future changes in Tacoma Power's SAP loaded rates with equipment and materials, or any future methodology commonly used by Tacoma Power for calculation of loaded rates with equipment and materials. Operator will be provided thirty (30) days' written notice of any such changes.

EXHIBIT C
SERVICE LEVEL AGREEMENT (“SLA”)

Section 1 Fiber Maintenance

a) Tacoma Power will perform all Fiber Maintenance for Tacoma Power Commercial Fiber on Critical Routes, including Scheduled Maintenance and Unscheduled Maintenance, as defined herein. Operator shall have access to the Tacoma Power Commercial Fiber, consistent with the IRU Agreement and Exhibits, during the performance of any Scheduled Maintenance or Unscheduled Maintenance so long as this requirement does not interfere with Tacoma Power’s ability to perform its obligations under this SLA.

b) Planned, non-emergency and routine Maintenance ("**Scheduled Maintenance**") will be performed at the times determined by Tacoma Power in its sole discretion, except if it is reasonably expected to produce any signal discontinuity for Tacoma Power Commercial Fiber, in which case the schedule shall be coordinated with Operator pursuant to Section 4 below.

c) Tacoma Power will perform unplanned, emergency or non-routine Maintenance, demand call-out, and repair ("**Unscheduled Maintenance**") for Tacoma Power Commercial Fiber on the Critical Routes, subject to the terms of this SLA. Unscheduled Maintenance includes the following activities:

- i. Respond to troubleshooting requests from Operator.
- ii. Respond to any notification from Operator or notification from any third party of a Fault (as defined below) on the Critical Routes, or any event imminently likely to cause a Fault on Critical Routes or demand maintenance requested by Operator.
- iii. Respond to any potential service-affecting situation to prevent any Fault on Critical Routes.
- iv. Operator shall immediately report the need for Unscheduled Maintenance to Tacoma Power in accordance with procedures promulgated by Tacoma Power from time to time. Tacoma Power shall log the time of Operator’s report, verify the problem and dispatch personnel to take corrective action in accordance with this SLA.

Section 2 Time to Respond

a) Tacoma Power personnel shall dispatch maintenance and repair personnel to handle and repair problems detected in the Tacoma Power Commercial Fiber on Critical Routes: (i) upon notification by Operator to Tacoma Power, or (ii) upon notification by a third party. Tacoma Power’s Fiber Maintenance services shall be available for dispatch twenty-four (24) hours a day, seven (7) days a week. Tacoma Power shall acknowledge receipt of a notification under (i) or (ii) by telephone (“Respond”) as soon as possible but in no event shall the annual Mean Time to Respond ("**MTTR**") for Unscheduled Maintenance activity be more than one (1) hour, unless delayed by a Force Majeure Event, including electrical restoration or the establishment of a safe work zone for telecommunication work to commence, or other circumstances beyond the reasonable control of Tacoma Power.

b) Hourly Updates. In all cases of Unscheduled Maintenance, Tacoma Power shall provide Operator with hourly updates of the progress of the Unscheduled Maintenance until the Unscheduled Maintenance is complete.

Section 3 Cooperation and Coordination

a) Tacoma Power shall provide Operator with a contact/escalation list (“**Escalation List**”) to aid in trouble reporting and resolution. The current Escalation List shall be made available to Operator and may be revised by Tacoma Power from time to time by written notice. In performing Maintenance, Tacoma Power shall take workmanlike care to prevent impairment to the signal continuity and performance of the Tacoma Power Commercial Fiber. The precautions to be taken by Tacoma Power shall include notifications to Operator when there may be service-affecting Fiber Maintenance. In addition, Tacoma Power shall reasonably cooperate with Operator in sharing information and analyzing the impairments regarding the Tacoma Power Commercial Fiber. If any Fiber Maintenance requires a reconfiguration involving fibers, electronic equipment, or regeneration or other facilities that are Tacoma Power Commercial System facilities that are the Maintenance responsibility of Operator, then Operator shall, at Tacoma Power’s reasonable request, make such personnel of Operator available as may be necessary to accomplish such Maintenance, which personnel shall coordinate and cooperate with Tacoma Power in performing such Fiber Maintenance

Section 4 Maintenance Window

a) For any Scheduled Maintenance which is reasonably expected to produce any signal discontinuity, Tacoma Power and Operator must coordinate to determine the appropriate time for that Scheduled Maintenance. Generally, this work should be scheduled after 11:00 p.m. and before 6:00 a.m. local time and on certain weekends (the “Maintenance Window”). Scheduled Maintenance scheduled to be performed during a Maintenance Window must be completed by the end of the Maintenance Window. If any Scheduled Maintenance goes beyond the end of the Maintenance Window and the Tacoma Power Commercial Fiber is unavailable, a period of Fiber Unavailability as defined in Section 10 shall commence and Operator may be entitled to liquidated damages under Section

b) Tacoma Power and Operator shall agree upon a detailed Maintenance Window calendar. Major system work, such as fiber rolls and hot cuts, shall be scheduled for Maintenance Window weekends. The intent is to avoid jeopardy work on high-traffic holidays.

c) Tacoma Power shall notify Operator of any Scheduled Maintenance to be performed during a Maintenance Window. If Scheduled Maintenance is cancelled or delayed for whatever reason as previously notified, Tacoma Power shall notify Operator at its earliest opportunity but no later than one (1) hour after such cancellation or delay.

Section 5 Testing and Restoration of the Tacoma Power Commercial Fiber

a) Tacoma Power shall respond to any failure, interruption, impairment in the operation of, or unavailability of the Tacoma Power Commercial Fiber on Critical Routes. (“**Fault**”) as quickly as possible following commencement of the Fault (allowing for delays caused by Force Majeure Events and other circumstances beyond the reasonable control of Tacoma Power) in accordance with the procedures set forth in Section 2. A Fault commences

upon the earlier of (i) Operator's notification to Tacoma Power or (ii) when indicated by network control information actually or reasonably known to Tacoma Power. Each Fault terminates upon restoration of the Tacoma Power Commercial Fiber as evidenced by appropriate splicing tests by Tacoma Power and confirmed by Operator as to network functionality and availability.

b) Tacoma Power shall maintain sufficient capability to teleconference with Operator during Unscheduled Maintenance in order to provide hourly communications during the restoration process. When correcting or repairing fiber optic cable discontinuity or damage, including but not limited to an event of Unscheduled Maintenance, Tacoma Power shall use commercially reasonable efforts to repair traffic-affecting discontinuity or damage of the affected Tacoma Power Commercial Fiber within six (6) hours of learning of discontinuity or damage after power restoration has been completed and the work site has been made safe. In order to accomplish such objective, it is acknowledged that the repairs so effected may be temporary in nature. In such event, within twenty-four (24) hours after completion of any such Unscheduled Maintenance, Tacoma Power shall commence its planning for permanent repair and thereafter promptly notify Operator of such plans, and shall implement such permanent repair within an appropriate time thereafter. Restoration of Tacoma Power Commercial Fiber on fiber strands not immediately required for service shall be completed on a mutually agreed-upon schedule.

c) During restoration, Tacoma Power and Operator agree to work together to restore all traffic as quickly as possible.

d) In performing permanent repairs, Tacoma Power shall comply with industry standards (ANSI/TIA/EIA-568 B.3) and when possible Operator's standard splicing specifications. Tacoma Power shall provide to Operator any modifications to these specifications as may be necessary or appropriate in any particular instance for Operator's approval, which approval shall not be unreasonably withheld.

e) Tacoma Power's representatives that are responsible for initial restoration of a cut fiber optic cable shall carry on their vehicles the typical appropriate equipment that would enable a temporary splice, with the objective of restoring operating capability in as little time as possible. Tacoma Power shall maintain and supply an inventory of spare fiber optic cable in storage facilities supplied and maintained by Tacoma Power at strategic locations to facilitate timely restoration.

f) Upon permanent restoration, Tacoma Power shall perform appropriate testing on the Tacoma Power Commercial Fiber in accordance with Tacoma Power's then current preventative maintenance procedures, which shall not substantially deviate from standard industry practice.

Section 6 Fiber Replacement

a) In the event that all or any part of the Tacoma Power Commercial Fiber on a Critical Route is required by Operator to be replaced, such replacement shall be made as soon as reasonably practical by Tacoma Power using fiber to be provided by Operator and credited toward Operator's Capital Expenditures. Operator must light at least ninety percent (90%) of available fiber in the relevant Tacoma Power Commercial Fiber Backbone, Service Ring or Service Drop, as applicable, before being entitled to make any request to Tacoma Power to install replacement fiber hereunder.

Section 7 Chronic Failure

a) In the event a portion of the Tacoma Power Commercial Fiber on a Critical Route suffers from a Fault (i) lasting more than 48 hours in the aggregate during any calendar month, (ii) lasting more than 24 hours consecutively in any three of the past 12 consecutive calendar months, or (iii) occurring on two or more separate occasions of more than 12 hours each in the aggregate in any calendar month, such a Fault will be considered a chronic failure (“**Chronic Failure**”). In the event of a Chronic Failure, at Operator’s written request, Tacoma Power shall present a remediation plan to Operator to address the Chronic Failure. Following the parties’ mutual agreement of a plan to solve the Chronic Failure, Tacoma Power shall implement and complete, if capable of completion, the plan within thirty (30) days. In the event that Tacoma Power Commercial Fiber requires replacement under the agreed remediation plan, Tacoma Power will replace the fiber using fiber to be provided by Operator and credited toward Operator’s Capital Expenditures. Operator must light all available dark fiber available in the affected Tacoma Power Commercial Fiber Backbone, Service Ring or Service Drop, as applicable, before being entitled to make any request to Tacoma Power to present or implement a remediation plan hereunder.

Section 8 Notifications and Liquidated Damages

a) Notifications required of Tacoma Power by Section 2 shall be provided to the Operator NOC. Operator shall be entitled to liquidated damages in accordance with the following table for each failure of Tacoma Power to Respond as set forth below:

Service Level Failure	Amount
Notification	\$120/initial failure to Respond
Response	\$120 for each hour in excess of the annual MTTR of 1 hour

Section 9 Fiber Availability

a) Fiber Availability Commitment. Tacoma Power shall use commercially reasonable efforts to maintain availability of the Tacoma Power Commercial Fiber one hundred percent (100%) of the time. Fiber Unavailability shall exist when unavailability of Tacoma Power Commercial Fiber causes disruption in service (“**Fiber Unavailability**”). Fiber Unavailability duration is measured from the time Tacoma Power detects Fiber Unavailability or Tacoma Power or Operator opens a trouble ticket until the time Operator confirms that the Fiber Unavailability has been remediated, which confirmation shall be prompt. Tacoma Power shall have a 12-hour grace period from the detection by Tacoma Power or opening of a trouble ticket before liquidated damages apply. Beginning with the 13th hour of Fiber Unavailability, every hour of Fiber Unavailability shall result in liquidated damages of One Hundred and Twenty (\$120) per hour per route, owed by Tacoma Power to Operator. Fiber Unavailability payments shall be capped 720 hours per Fiber Unavailability event. To claim payment, Operator must provide Tacoma Power with a written request

before the sixth (6th) Business Day of the month following the month in which Fiber Unavailability occurred.

b) Terrestrial Fiber Commitment. Tacoma Power commits to maintain attenuation levels not to exceed an overall end to end dB loss as set out in industry standards (See, ANSI/TIA/EIA-568 B.3). End to end dB loss shall be calculated by adding together the loss from each of the segments on the Tacoma Power System.

c) Liquidated Damages Unavailable in Some Circumstances. Liquidated damages shall not be available to Operator under this Exhibit in circumstances where the issue arises from (a) the acts or omissions of Operator or its employees, contractors, agents or end-users; (b) the failure, malfunction, or limitation of throughput of equipment, network, software, applications or systems not owned or directly controlled by Tacoma Power; (c) circumstances or causes beyond the control of TPU, such as Force Majeure Events and third-party attacks on the Tacoma Power Commercial Fiber; (d) Scheduled Maintenance performed within the Maintenance Window for that Scheduled Maintenance; or (e) Unscheduled Maintenance when Tacoma Power Responds as set out in this Agreement.

EXHIBIT D
ACCESS TO AND MAINTENANCE OF TACOMA POWER COMMERCIAL SYSTEM
BY OPERATOR

The terms and conditions of this Exhibit D shall govern Operator's maintenance obligations and access rights with regards to the Tacoma Power Commercial System to the extent not already addressed in Exhibits A, B and C. Capitalized terms used herein but not defined herein shall have the meanings assigned to them in Exhibit A, B, C, or the IRU Agreement.

1. GENERAL

(a) For the purposes of this Exhibit D, "Maintenance" means any activities undertaken to maintain the Tacoma Power Commercial System in working order and to make use of the Tacoma Power Commercial System, including but not limited to regular patrol of the Tacoma Power Commercial System; maintenance of a "Call-Before-You-Dig" program and all required and related locates; maintenance of sign posts along the Tacoma Power Commercial System with the number of the local "Call-Before-You-Dig" organization; infrastructure repair; splicing; emergency restoration; pole transfers; replacement; road projects and overhead-underground conversions; cable restoration; reattachment; moves; make-ready compliance; route-relocation; and other standard processes undertaken by communications infrastructure owners. The term excludes Fiber Maintenance as defined in Exhibit B which is to be performed exclusively by Tacoma Power pursuant to Exhibits B and C.

(b) Maintenance Costs. All of the Maintenance shall be performed by Operator and all Maintenance costs shall be borne by Operator, except those Fiber Maintenance activities (and costs responsibility) reserved for Tacoma Power pursuant to Exhibits B and C.

(b) Energy Costs. Operator's use of energy provided by Tacoma Power is not included in this IRU Agreement. Operator shall, notwithstanding the City's joint use of the Hub Sites, procure and pay for such energy under separate agreement consistent with Tacoma Power's standard commercial pricing.

(c) Compliance with Applicable Standards. In connection with the performance of the Maintenance and any other work and in the operation of equipment pursuant to this IRU Agreement, Operator shall comply and shall ensure that the equipment, the Maintenance and any other work, and all of Operator's suppliers and contractors (of any tier) comply with all Applicable Standards. "**Applicable Standards**" has the meaning in the then-current Master Pole Attachment Agreement between Tacoma Power and Operator.

(d) Cooperation. To the extent permitted by applicable law, Tacoma Power will work with Operator to support efficient and expeditious applications for permits, consistent with City of Tacoma policy and practices and with the appropriate franchise agreement(s) to be separately negotiated. To the extent permitted by applicable law, Tacoma Power will also work with Operator to efficiently and expeditiously issue permits, consistent with Tacoma Power's policy and practices and with the then-current Master Pole Attachment Agreement between Tacoma Power and Operator. The commitments in this paragraph are not intended to imply, predetermine or assure any particular outcome of the City's or Tacoma Power's processing of any applications for permits by Operator. Further, nothing in this paragraph is intended or shall be construed to

require that the City exercise its discretionary authority under its regulatory ordinances to further a project permit application, nor does this paragraph bind the City of Tacoma to do so.

(e) During the first thirty-six (36) months following the Effective Date of the IRU Agreement, the technical teams for the Parties will meet on a monthly basis for purposes of sharing information, data, and plans regarding upcoming construction and upgrades, so as to enable the Parties to plan accordingly based on shared expectations. The Parties anticipate that these monthly meetings will serve to provide predictability and enable the Parties to facilitate supporting the needs of the other, as well as to plan appropriately for staffing and other upcoming efforts. Following the first thirty-six (36) months (or at another time of mutual agreement), the meetings will be held on a quarterly rather than monthly basis.

(f) Monthly Reporting. On or before the fifteenth (15th) day of each month, following the Effective Date, Operator shall provide Tacoma Power with a report including as-built drawings indicating construction type, routes, and strand count for any new construction, upgrades, or other efforts on both Critical Routes and Non-Critical Routes over the previous calendar month. The data shall be provided in .DWG format, or such successor format as may be designated from time to time by Tacoma Power in its reasonable discretion.

(g) Inspection Rights. In order to determine Operator's compliance with this Exhibit, Tacoma Power shall have the right to visually inspect any part of the Tacoma Power Commercial System at any time with or without notice to Operator.

2. MAINTENANCE OF TACOMA POWER COMMERCIAL SYSTEM COMPONENTS

(a) Except as may be otherwise agreed to in writing by the Parties, Operator will be responsible for performing all Maintenance on the Tacoma Power Commercial Coax as needed. This includes Tacoma Power Commercial Coax on Critical Routes and Non-Critical Routes. These tasks may include RF level measurements, noise measurements, and industry standard troubleshooting or regular maintenance tasks. If needed, Operator shall repair or replace active or passive Tacoma Power Commercial Coax components when necessary to eliminate service impairment or outages. Performance of Maintenance must comply with the standards and procedures set forth in the then-applicable Master Pole Attachment Agreement between Tacoma Power and Operator.

(b) Except as provided in **Exhibit B and C**, Operator will be responsible for performing all Maintenance of Tacoma Power Commercial Fiber. This includes any Tacoma Power Commercial Fiber on Non-Critical Routes and any Tacoma Power Commercial Fiber not in the same sheath or bundle with Utility Fiber on Critical Routes.

(c) Operator will be responsible for all Maintenance of all After-Installed Assets, except to the extent covered by Exhibits B and C.

(d) Operator must hold a Master Pole Attachment Agreement with Tacoma Power during the Term of this IRU Agreement.

3. INSTALLATION OF NEW FIBER

(a) Operator may not overlash or delash fiber to the Tacoma Power Commercial System or attach new fiber optic plant to Tacoma Power poles within the Tacoma Power Commercial Service Area without the prior written consent of Tacoma Power. To request consent, Operator must

follow the procedure in its then-current Master Pole Attachment Agreement with Tacoma Power, and additionally submit the supplemental form in **Exhibit D-1**.

(b) Operator may not overlash or delash fiber to any portions of the Tacoma Power Commercial Fiber installed on poles not owned by Tacoma Power without the prior written consent of Tacoma Power and the pole owner.

(c) Operator is solely responsible for obtaining permits to make any attachments to poles not owned solely by Tacoma Power, notwithstanding the fact that Tacoma Power may have power or communications facilities on the same poles.

4. REMEDIES FOR NON-COMPLIANCE

(a) In the event that Tacoma Power discovers a Default of an obligation in this Exhibit by Operator that poses an imminent public safety concern or threat to the safety of Tacoma Power operations, Tacoma Power may take corrective action to address the Default without prior notice to Operator, and invoice Operator for the cost of such corrective action.

(b) In the event that Operator commits repeated Defaults of this Exhibit, Tacoma Power shall have the right to (i) assume responsibility for the performance of the obligations of this Exhibit indefinitely at Operator's cost; or (ii) give notice to terminate this IRU Agreement pursuant to Section 21(g) of the IRU Agreement.

EXHIBIT D1

PROCESS FOR OVERLASHING, DELASHING OR ATTACHING NEW CABLES WITHIN THE TACOMA POWER COMMERCIAL SYSTEM

Prior to any Overlash, Delash or attachment of new Cables to those Tacoma Power poles which are part of the Tacoma Power Commercial System and subject to the IRU Agreement ("IRU"), Operator must have a current Master Pole Attachment Agreement ("MPAA") with Tacoma Power and submit an IRU Pole Attachment Request to Tacoma Power. IRU Pole Attachment Requests shall be in the format shown in **Exhibit D1.1**. Capitalized terms used herein but not defined shall have the meanings assigned to them in the MPAA.

Any Overlash, Delash or attachment of new Cables to Tacoma Power poles subject to the IRU shall be governed by the terms of Operator's then current MPAA and all Addendums thereto **except as follows**:

Make Ready Work: Make Ready Work shall be performed by Tacoma Power or Tacoma Power's contractor at no charge to Operator.

Review and Approval: Tacoma Power's review and approval process will begin upon Operator's submission of a complete IRU Pole Attachment Request.

Inventory: IRU Pole Attachment Requests do not require the submission of Attachment inventories.

Photographs: IRU Pole Attachment Requests do not require the submission of photographs.

Fees: IRU Pole Attachment Requests are not governed by the Fees provision of Operator's then current MPAA. Only the Application Fees, actual costs for engineering review and field inspections and any additional charges for electricity supplied by Tacoma Power will be charged.

Tags: Attachments approved pursuant to an IRU Pole Attachment request must be identified by a tag approved by Tacoma Power confirming the Attachment is subject to this IRU.

Billing: Overlash, Delash or attachment of new Cables to Tacoma Power poles subject to this IRU are not subject to the Billing provision of Operator's then current MPAA. Only Application, engineering review and field inspection fees will be billed.

Liability, Indemnification and Exculpation: To the extent there is any conflict or inconsistency between the sections of Operator's then current MPAA entitled **Liability, Indemnification and Exculpation** the terms of the IRU are controlling over Overlash, Delash or attachment of new Cables to those Tacoma Power poles subject to the IRU.

Worker's Compensation, Insurance and Bonds: To the extent there is any conflict or inconsistency between the sections of Operator's then current MPAA entitled **Worker's Compensation, Insurance and Bonds** the terms of this IRU are controlling over Overlash, Delash or attachment of new Cables to those Tacoma Power poles subject to this IRU.

- (a) For a period of six (6) months following the Effective Date, Operator commits to offer residential broadband internet access services at speeds similar to those available on the Tacoma Power Commercial System immediately prior to the Effective Date. Nothing in this commitment is meant to prevent Operator from offering faster speeds.
- (b) For a period of six (6) months following the Effective Date, Operator commits to offer residential cable services similar to those available on the Tacoma Power Commercial System immediately prior to the Effective Date.
- (c) Nothing in this Exhibit or the IRU Agreement is intended to prevent Operator from offering the services described in Section 1(a) or (b) for a longer period.
- (d) Except as provided in this Exhibit and in Exhibit H (Affordable Access to Telecommunications Services), nothing in this IRU Agreement or the Exhibits limits or controls Operator's authority to determine the types of services it will to offer the public via the Tacoma Power Commercial System; provided that Operator complies with the service-related requirements of the IRU Agreement and the Exhibits, including Exhibits G through L.

2. TACOMA POWER COMMERCIAL SYSTEM UPGRADE TO DOCSIS 3.1

(a) **DOCSIS 3.1.** Operator agrees to make such capital expenditures and upgrades as are necessary to migrate the Tacoma Power Commercial System to DOCSIS 3.1 and to make gigabit speed internet service available as described in items 1 and 2 below (the "Upgrade"), which expenditures shall count towards Operator's Capital Expenditures Minimum to the extent they fall within the definition of Capital Expenditure in Exhibit F.

- 1. Operator will ensure availability of a 1000/10 Mbps service (the "Gigabit Service") at a passing, as evidenced by speed test results at peak usage time measured at the tap at the passing location. The DOCSIS 3.1 upgrade engineering and design shall be completed by the first anniversary of the Effective Date. The Gigabit Service shall be available at 40% of passings by the second anniversary of the Effective Date, and 100% of passings by the third anniversary of the Effective Date.
- 2. Operator will provide DOCSIS 3.1 modems to all new customers and replace customer modems with DOCSIS 3.1 modems for all existing customers who upgrade to services that require DOCSIS 3.1. Any new or replacement modems will be provided at Operator's terms and fees in effect at the time of provisioning.

(b) Operator further agrees to make available the upgraded services contemplated by this Section in accordance with the equity principles enumerated in Exhibit G.

3. TACOMA POWER COMMERCIAL SYSTEM UPGRADE PLAN AND VERIFICATION

(a) **Quarterly Reports.** Operator shall provide quarterly reports on the status of the Upgrade.

(b) **Annual Certification.** Operator shall provide a certification to Tacoma Power within thirty (30) days after each period identified in Section 2(a)(1) above, signed by one of its corporate officers certifying compliance with the Upgrade requirement for the reporting period and cumulatively as of the date of the certification.

(c) **Verification Procedure.** Tacoma Power may perform tests to confirm compliance with Section 2(a)(1) above. Operator will facilitate and enable Tacoma Power to test the Tacoma Power Commercial System once a month at up to five test points chosen by Tacoma Power. Tacoma Power will conduct such speed tests with results measured at the node at peak and other usage times, at its discretion with prior notice to Operator.

4. OBLIGATION TO MAKE FUTURE UPGRADES

(a) Operator shall upgrade the Tacoma Power Commercial System as new broadband technologies are developed for traditional cable television networks utilizing hybrid fiber/coaxial architecture. Operator will upgrade the Tacoma Power Commercial System to keep pace and parity with the hybrid fiber/coaxial networks operated by the cable broadband providers in the Seattle-Tacoma metropolitan area. As of the Effective Date of this IRU Agreement, those networks are operated by Comcast Cable and Wave Broadband. Future, upgraded network architectures for cable broadband networks that are currently hybrid fiber/coaxial may include newer versions of DOCSIS, deeper fiber architecture such as a node plus 0 cascade depth, increased upstream and downstream cable system capacity, or fiber-to-the-premises. Nothing in the foregoing language is meant to imply that Operator is limited to using a hybrid fiber/coaxial network throughout the Term of this IRU Agreement.

(b) As the networks currently operated by Comcast and Wave in the Seattle-Tacoma metropolitan area are upgraded to new technologies, Operator shall upgrade the Tacoma Power Commercial System to the same technologies or to similar technologies capable of delivering equivalent services.

(c) The upgrade commitments in this Exhibit assume that the Tacoma Power Commercial System will remain a wireline network architecture with the same number of homes passed as of the Effective Date (approximately one hundred and fifteen thousand (115,000)) or larger numbers of homes passed by the physical plant within the Tacoma Power Commercial Service Area throughout the Term. However, should Operator determine that there are new technologies available for future upgrades that would require a smaller wireline network footprint in order to maintain a system that meets the requirements of this Section for delivering services to the Tacoma Power Commercial Service Area, Operator may submit a written proposal to Tacoma Power for its evaluation. Tacoma Power shall have no obligation to accept such proposal.

(d) Any such upgrades that qualify as Capital Expenditures shall be part of and not in addition to the Capital Expenditures Minimum set out in Exhibit F.

5. REPORTING ON FUTURE UPGRADES AND VERIFICATION

(a) On the first Annual Reporting Date following completion of the Upgrade as specified in Operator's final annual certification submitted pursuant to Section 3(b), and on each Annual Reporting Date thereafter, Operator shall submit a report to Tacoma Power on the status and capabilities of the Tacoma Power Commercial System. Based on publicly available information, Operator shall include a comparison to service as provided by wireline broadband providers in the Seattle-Tacoma metropolitan region.

(b) Beginning in the seventh year of the Term of the IRU Agreement, Tacoma Power shall have the right to perform a technical audit and test the Tacoma Power Commercial System to determine whether its capabilities meet the requirements of Section 4. Testing may include, but is not limited to, a review of network configurations and diagrams, site visits, and network testing at random locations in the field. Such technical audits shall take place no more frequently than once every three (3) years. This requirement shall not limit the verification that Tacoma Power may perform under Section 3(c).

6. REMEDIES FOR FAILURE TO TIMELY UPGRADE TACOMA POWER COMMERCIAL SYSTEM OR REPORT

(a) Failure to timely provide the certification required in Section 3(b) is a Default. Liquidated damages in the amount of Two Hundred and Fifty Dollars (\$250) per day shall accrue from the date of receipt of a Notice of Default until the Default is cured.

(b) In the event that Operator does not cure or resolve a Default of a requirement contained in Section 2 within the timeframes established pursuant to Section 21(c) or 24 of this IRU Agreement, liquidated damages in the amount of Seven Hundred Fifty Dollars (\$750) per day will accrue until the Default is cured.

(c) If Tacoma Power provides a Notice of Default to Operator related to the requirements in Section 4, any cure, including the submittal of a compliance plan, shall not relieve Operator from its obligations in Section 4.

EXHIBIT F
CAPITAL EXPENDITURES COMMITMENT

1. CAPITAL EXPENDITURES MINIMUM

(a) Operator shall make such Capital Expenditures (as defined below) to the physical assets of the Tacoma Power Commercial System on an ongoing basis, as are customary to maintain the Tacoma Power Commercial System and its associated services in a technological state comparable to that of other providers of cable/broadband services in the Seattle, Washington metropolitan area as described in Exhibit E.

(b) In no event shall Operator make Capital Expenditures in any full calendar year (“**Capital Expenditures Period**”) during the Term of the IRU Agreement totaling less than One Million Five Hundred Thousand Dollars (\$1,500,000.00), as may be adjusted pursuant to Section 1(e) below (“**Capital Expenditures Minimum**”).

(c) During the period from the Effective Date until December 31, 2019 (“**Initial Period**”), Operator’s Capital Expenditures commitment shall be the amount determined by multiplying the number of days in the Initial Period by Four Thousand One Hundred and Ten Dollars (\$4,110) (“**Initial Period Minimum**”).

(d) During the period from January 1 of the last year of the IRU Agreement until the date the IRU Agreement expires (“**Final Period**”), Operator’s Capital Expenditures commitment shall be the amount determined by multiplying the number of days in the Final Period by the amount calculated by dividing the Capital Expenditures Minimum applicable in the immediately prior Capital Expenditure Period by 365 days (“**Final Period Minimum**”).

(e) Tacoma Power may adjust the Capital Expenditure Minimum once during each Capital Expenditure Period based on changes in the Consumer Price Index.

2. CALCULATING AND REPORTING QUALIFYING CAPITAL EXPENDITURES

(a) In order to count towards the Capital Expenditures Minimum, including the Initial Period Minimum and the Final Period Minimum, an outlay must be a “Capital Expenditure”. The term includes, but is not limited to, expenditures on upgrades of coaxial cable to optical fiber, upgrades in system capacity, reallocation of system capacity from downstream to upstream, system extensions, upgrades of equipment and other materials to enable or support successive generations of DOCSIS, and expenditures on upgrades to fiber-to-the-premises. To qualify, any improvements made due to an expenditure must become physical assets of the Tacoma Power Commercial System owned by Tacoma Power upon installation, subject to the IRU Agreement. The term does not include: (i) any funds spent by Operator on physical assets that do not become part of the Tacoma Power Commercial System; (ii) expenditures on physical assets (whether they become part of the Tacoma Power Commercial System or not) that are *not* related to provision of wireline services. For example, expenditures on wireless communications facilities, including wireless facility attachments to enable deployment of small cell, and

distributed antenna systems, will not be Capital Expenditures. Labor costs may be included if directly attributable to capital and not operations.

(b) Operator shall, on each Annual Reporting Date, submit to Tacoma Power a report on Capital Expenditures, with descriptions and dollar amounts, it has made since the most recent such report, or in the case of the first such annual report, in the Initial Period. The report shall identify if Capital Expenditures include any Credits (as defined below) from any prior Capital Expenditure Period. The report shall include Operator's supporting documentation necessary to demonstrate compliance for the reported Capital Expenditures, including the following:

1. Invoices for all contracted labor, with accompanying certification by Operator management that the claimed labor costs were directly attributable to Capital Expenditures, not operating expenses;
2. Work orders for internal labor associated with capital upgrades, with accompanying certification by Operator management that the claimed labor costs were directly attributable to Capital Expenditures, not operating expenses;
3. Bills of sale and inventory documentation for all materials and equipment purchased as part of Operator's Capital Expenditures obligation; and
4. As-built maps documenting outside plant construction and upgrades.

(c) For the Final Period, the report shall be submitted to Tacoma Power within sixty (60) days after the IRU Agreement expires or terminates.

(d) For any period in which After-Installed Assets are subject to financing arrangements described in Section 3 of the IRU Agreement, the report on Capital Expenditures shall also include a current status report on the ownership interests in and liens to which the After-Installed Assets are subject.

3. CREDITS AND SHORTFALLS

(a) If the report submitted pursuant to Section 2(b) demonstrates that Operator's Capital Expenditures were in excess of the Capital Expenditures Minimum (or if applicable, the Initial Period Minimum), the difference shall be considered a "Credit" and shall be credited toward the Capital Expenditures for the Capital Expenditures Period or Periods that follow (including the Final Period).

(b) If the report submitted pursuant to Section 2(b) demonstrates that Operator's Capital Expenditures (including any Credits from prior Capital Expenditure Periods, including the Initial Period) were less than the Capital Expenditure Minimum (or if applicable, the Final Period Minimum), the difference shall be considered a "Shortfall" and Tacoma Power shall have the remedy described in Section 5 below.

4. AUDIT RIGHTS

(a) Tacoma Power shall have the right no more than once every three (3) years to audit those Operator's books, records, and finances that relate to the IRU Agreement, upon reasonable notice to Operator and during normal business hours, in order to determine Operator's compliance with the Capital Expenditures Minimum.

5. REMEDIES FOR NON-COMPLIANCE

(a) If Operator submits a report, other than the report for the Final Period, showing a Shortfall, it will have an additional twelve (12) month period following the end of the Capital Expenditure Period showing the Shortfall ("**Catch-Up Period**") in which to make Capital Expenditures to be credited towards the Shortfall ("**Catch-Up Capital Expenditures**"). At the end of the Catch-Up Period, Operator shall submit a report on the Catch-Up Capital Expenditures in the same form as the annual report described in Section 2. If the report shows Operator has failed to make Catch-Up Capital Expenditures equivalent to the Shortfall during the Catch-Up Period, Operator will remit a payment, along with the report in the amount of the Shortfall, less the Catch-Up Expenditures, if any.

(b) If Operator submits a report for the Final Period showing a Shortfall, Operator will remit a payment, along with the report in the amount of the Shortfall.

(c) A late fee in the amount of Twelve Percent (12%) per annum shall be due and payable in the event that Operator has not paid the Shortfall within thirty (30) days after its due date.

EXHIBIT G EQUITABLE ACCESS

1. EQUITY IN PRICING AND SERVICE LEVELS.

(a) Operator agrees to offer like services at like prices to residential customers throughout the Tacoma Power Commercial Service Area.

(b) The Upgrade contemplated by Exhibit E hereto, as well as subsequent upgrades pursuant to Section 4 of Exhibit E, will be undertaken on a ubiquitous basis to 100% of the Tacoma Power Commercial System.

(b) Operator's goal is to roll out all upgrades in an equitable manner to ensure that neighborhoods with different levels of household income, neighborhoods with different mixes of race or ethnicity, and different council districts within the City of Tacoma all benefit from the upgrades on comparable deployment schedules.

2. EQUITY IN ACCESS TO SERVICE.

(a) Operator agrees that it will not decline service to any customer in good standing and that its services will be available on an equitable basis throughout the Tacoma Power Commercial Service Area. Consistent with its existing practices, Operator shall reinstate service for delinquent customers so long as they pay outstanding balances including late fees, if any, and remain current.

3. EQUITY COMMITMENTS.

(a) Operator will actively work to eliminate racial and socioeconomic disparities as it upgrades the Tacoma Power Commercial System across the Tacoma Power Commercial Service Area and beyond.

(b) Operator commits to purposeful citizen outreach and engagement with diverse community partners to better understand the needs of historically underserved populations. Through this, Operator will provide access based on the best available technology to serve the unique needs of any particular area or population.

(c) Operator will work with community partners and businesses from all parts of the Tacoma Power Commercial Service Area to promote and track equity and inclusion of services within Tacoma, Washington and throughout the region. This will allow Operator to quantify measurable improvements as they relate to broadband and telecommunication access in the community.

(d) As it does in its other service areas, Operator will provide guidance, education, and assistance to any subscriber requesting such assistance to help achieve equitable service outcomes as it relates to broadband and telecommunications offerings.

(e) Operator commits to being transparent and collaborative with individuals and community groups, holding itself accountable for measurable improvements and outcomes as it relates to equitable penetration of telecommunications and broadband services in the Tacoma Power Commercial Service Area.

4. PUBLICATION OF RATES AND SERVICES

(a) Operator shall publish its rates and services for residential customers on its website. This obligation shall not apply to enterprise customers.

5. ANNUAL CERTIFICATION.

(a) Operator shall provide annually to Tacoma Power, on the Annual Reporting Date, a certification signed by a corporate officer certifying that it has complied with the requirements of Sections 1 and 2 of this Exhibit G. Such certification shall also include report on activities that Operator has undertaken pursuant to this Exhibit G, including its specific efforts to meet the obligations contained in Section 3(a)-(e) of this Exhibit.

6. REMEDIES FOR NON-COMPLIANCE

(a) Failure of Operator to publish its rates and services on its website as required by Section 4 of this Exhibit is a Default. Liquidated damages in the amount of Two Hundred and Fifty Dollars (\$250) per day shall accrue from the date of receipt of Notice of Default until the Default is cured; provided that, the liquidated damages amount shall increase to five hundred dollars (\$500) per day if the Default is not cured within ninety (90) days following the date of receipt of the Notice of Default.

(b) In the event that Tacoma Power provides a Notice of Default to Operator related to the requirements contained in Section 1 or 2 of this Exhibit, any cure, including submittal of a compliance plan pursuant to Section 21(c) of this IRU Agreement, shall include rebates or refunds to customers who have overpaid and periodic reporting on compliance plan implementation.

(c) In the event that Operator does not cure or resolve a Default of a requirement contained in Section 1 or 2 of this Exhibit within the timeframes established pursuant to Sections 21(c) or 24 of this IRU Agreement, liquidated damages will accrue until the Default is cured and maintained for three consecutive months. Liquidated damages of Ten Thousand Dollars (\$10,000) will accrue for the first month, increasing by Five Thousand Dollars (\$5,000) each month thereafter until compliance is maintained for three consecutive months; provided that no liquidated damages will accrue or be payable for the three consecutive months of compliance. Operator agrees that, until compliance is maintained for three (3) consecutive months, it will provide Tacoma Power with a monthly report setting forth its efforts to implement the compliance plan together with a certification as to the status of its compliance.

EXHIBIT H
AFFORDABLE ACCESS TO TELECOMMUNICATIONS SERVICES

1. LIFELINE

(a) Operator represents that it is designated by the State of Washington or the Federal Communications Commission (“**FCC**”) as an eligible telecommunications carrier (“**ETC**”) and meets the program requirements to serve as a Lifeline services provider as of the Effective Date of the IRU Agreement and that it will maintain such ETC designation and participate in Lifeline or any available successor program, subject to the rules of the FCC, throughout the Term of this IRU Agreement.

(b) Operator shall offer the federal Lifeline subsidy to those customers within the Tacoma Power Commercial Service Area that qualify for the Lifeline subsidy according to the rules and policies of the FCC.

(c) In furtherance of the requirements in this Section 1, Operator agrees to: (i) publish the availability of its Lifeline program on its website; (ii) provide to Tacoma Power a copy of its redacted FCC Form 481, the Carrier Annual Reporting Data Collection Form (or comparable reports if modified by FCC in future) on the Annual Reporting Date each year and its FCC Form 555, the Annual Lifeline Eligible Telecommunications Carrier Certification Form; (iii) provide Tacoma Power with a certification annually on the Annual Reporting Date, certifying that it is in compliance with Section 1(b), and including a report of the annual aggregate statistics regarding customer enrollment in the Lifeline program served by the Tacoma Power Commercial System; and (iv) manage its Lifeline program in good faith at all times.

2. REDUCED-COST BROADBAND PROGRAM

(a) For the Term of the IRU Agreement, Operator shall offer a substantially reduced-cost broadband internet access service, at or above the FCC definition of broadband (as established periodically in FCC Broadband Deployment Reports, or similar reports) to households that are eligible for Tacoma Power’s electric service low-income program and shall periodically evaluate the offering of higher speed service at the reduced-cost service rate. Operator has represented that its initial program will consist of 30/10 (30 megabits download and 10 megabits upload). This plan may change over time.

(b) In furtherance of the requirements in this Section 2, Operator agrees to: (i) publish the availability of its reduced-cost broadband service on its website, in a manner that prominently advertises the service where Operator’s other services and pricing for the Tacoma Power Commercial System are advertised; (ii) establish a verification process for applicants that is non-onerous to customers; (iii) provide Tacoma Power with a certification signed by a corporate officer on an annual basis on the Annual Reporting Date, certifying that it is offering reduced-cost service, and including a report of the annual aggregate statistics regarding customer enrollment in the program; and (iv) manage its program in good faith at all times.

3. FREE BROADBAND SERVICE TO QUALIFYING ENTITIES

(a) Operator shall provide free broadband internet access service (either wired or Wi-Fi service at Operator’s option) to at least 30 locations passed by the Tacoma Power Commercial System within the Tacoma Power Commercial Service Area, that provide services to low-income

members of the community, as a means of facilitating broadband internet access for those who cannot access it elsewhere.

(b) Tacoma Power shall determine which categories of locations qualify for such free service and communicate the categories in writing to Operator. Within ninety (90) days thereafter, Operator must have the program in place so that qualifying entities can submit requests to Operator for processing and approval by both parties.

(c) Operator and Tacoma Power will try cooperatively to process and approve or deny requests within thirty (30) days of receipt.

(d) Operator shall provide the service contemplated in Section 3(a) within a reasonable time period, not to exceed thirty (30) days, following approval, unless the parties mutually agree to a longer period.

(e) Operator shall be excused from meeting the thirty (30) location target if there is insufficient demand from qualifying entities.

(f) In furtherance of the requirements in this Section 3, Operator agrees to: (i) publish the availability of its program on its website; (ii) provide Tacoma Power with a certification signed by a corporate officer on an annual basis on the Annual Reporting Date, certifying that it is offering the service, and including a report listing the locations receiving service under the program; and (iii) manage its program in good faith at all times.

EXHIBIT I

CUSTOMER SERVICE COMMITMENTS

1. CUSTOMER SERVICE CONTACTS

(a) Operator agrees to maintain a local or toll-free telephone line for taking customer calls and will provide other forms of customer contact that will be available twenty-four (24) hours per day, seven (7) days per week, including on holidays. During hours and days during which most similar businesses in Tacoma are open to serve customers, which currently includes Saturday mornings (“**Normal Business Hours**”), company representatives will be available to respond to customer inquiries. After Normal Business Hours, Operator may make provision for electronic response pending opportunity the following day for a response by a company representative. A company representative will respond to inquiries received after Normal Business Hours on the next business day.

(b) Under normal operating conditions that are within the control of Operator (“**Normal Operating Conditions**”), calls and other forms of customer contacts will be answered by a company representative within thirty (30) seconds after the connection is made. If the call or contact is transferred, the transfer time will not exceed thirty (30) seconds. These standards will be met at least ninety percent (90%) of the time, measured quarterly. Under Normal Operating Conditions, customers will receive a busy signal no more than three percent (3%) of the time. Normal Operating Conditions include special promotions and normal system maintenance and upgrades, but do not include natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions.

2. SERVICE CALLS

(a) Operator will schedule appointments for installations and other service calls either at a specific time or, at a maximum, during a four-hour time block during normal business hours. Operator may also schedule service calls outside of normal business hours for the convenience of the customer. Operator will not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment. If the service technician is running late and will not meet the specified appointment time, Operator will contact the customer and reschedule the appointment at the convenience of the subscriber.

(b) Standard installations that are located up to One Hundred and Twenty Five (125) feet from the existing distribution system will be performed within seven (7) days after an order has been accepted.

(c) Except during an event of Force Majeure, Operator will begin working on a service interruption no later than twenty-four (24) hours after being notified of the problem. Working is meant to denote that Operator has begun to address the matter.

(d) These standards concerning installations, outages and service calls will be met under normal operating conditions at least ninety-five percent (95%) of the time, measured quarterly.

3. BILLING PRACTICES

Thirty days advance notice will be given to subscribers of any changes in rates or services if the change is within the control of Operator. Refunds will be issued no later than either the customer's next billing cycle or thirty (30) days following resolution of the request, whichever is

earlier, or upon the return of equipment when service is terminated. Credits will be issued no later than the billing cycle following the determination that a credit is warranted.

4. PHYSICAL PRESENCE

Operator will maintain a physical presence in the City of Tacoma, including a store that will be open during all Normal Business Hours, where consumers can transact business in person with Operator staff-persons. The address of Operator's store shall be posted on its website. Operator will maintain some of its customer service staff in Tacoma.

5. QUARTERLY REPORTS

(a) Operator will provide Tacoma Power a report on its compliance with these customer service standards on a quarterly basis within thirty (30) days of the end of each calendar quarter.

(b) After the first three (3) years of the Term, if Operator has been in compliance, then future reporting shall be reduced to an annual basis. If reports are required annually, such report shall be submitted on the Annual Reporting Date, and in the event of a Default, Section 7(b) shall not apply; instead Section 6 of the IRU Agreement shall apply.

6. ANNUAL CERTIFICATION

Operator shall annually submit to Tacoma Power, on the Annual Reporting Date, a certification signed by a corporate officer certifying Operator's compliance with Section 4 of this Exhibit.

7. REMEDIES FOR NON-COMPLIANCE

(a) In the event that Operator does not cure or resolve a Default of a requirement of Section 4 of this Exhibit within the timeframes established pursuant to Sections 21(c) or 24 of this IRU Agreement, liquidated damages in the amount of Two Hundred and Fifty Dollars (\$250) per day will accrue until the Default is cured.

(b) Failure of Operator to timely submit any report required by Section 5 to Tacoma Power is a Default. Liquidated damages in the amount of Two Hundred and Fifty Dollars (\$250) per day shall accrue from the date of receipt of a Notice of Default until the Default is cured.

(c) In the event that Tacoma Power provides a Notice of Default related to the submittal of a report pursuant to Section 5 which demonstrates that Operator has failed to meet any of the customer service standards contained in this Exhibit, any cure, including submittal of a compliance plan shall include a requirement that Operator report to Tacoma Power, on a monthly basis, until such compliance plan is completely implemented and Operator is in compliance with all of the customer service standards in this Exhibit for three (3) consecutive months.

8. SCOPE OF OBLIGATIONS

(a) For the avoidance of doubt, the obligations in this Exhibit are the minimum obligations that may be imposed on Operator by Tacoma Power pursuant to this IRU Agreement with respect to customer service. Operator must also comply with any other obligations it may have with respect to customer service, including but not limited to, obligations in any franchise agreements or in municipal, state or federal laws or regulations, as they exist as of the Effective Date, or as they may be adopted or amended in the future.

(b) Nothing in this Exhibit should be construed to prevent or prohibit: (i) the City of Tacoma, acting in its capacity as a franchising authority, and Operator from agreeing to customer service

requirements that exceed the standards set forth in this Exhibit; (ii) the City of Tacoma, acting in its capacity as a franchising authority, from enforcing pre-existing customer service requirements that exceed the standards set forth in this Exhibit; (iii) the City of Tacoma, acting in its capacity as a franchising authority, from enacting or enforcing any consumer protection law; or (iv) the establishment or enforcement of any ordinance or regulation by the City of Tacoma concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by, the standards set forth in this Exhibit.

This Resolution prohibits Internet Service Providers that serve as retail broadband data providers on the Tacoma Power Commercial System from collecting or selling personal information from a customer's use of the Internet without express written approval.

(b) Operator agrees to implement compliance with Resolution No. 39702 into its own broadband data service offerings delivered using the Tacoma Power Commercial System.

(c) Operator agrees to implement compliance with Resolution No. 39702 into any agreements it enters into with Internet Service Providers that serve as retail broadband data service providers on the Tacoma Power Commercial System.

2. PUBLICATION OF POLICY AND ANNUAL CERTIFICATION

(a) Operator shall conspicuously publish its privacy policy on its website.

(b) This privacy policy shall not limit subscribers' rights to seek judicial remedies.

(c) Operator shall annually submit to Tacoma Power, on the Annual Reporting Date, a certification signed by a corporate officer certifying Operator's compliance with this Exhibit. The annual certification shall include a copy of Operator's privacy policy.

3. REMEDIES FOR NON-COMPLIANCE

(a) In the event that Operator does not cure or resolve a Default of the requirement to conspicuously publish its privacy policy on its website within the timeframes established pursuant to Sections 21(c) or 24 of this IRU Agreement, liquidated damages will accrue in the amount of Five Hundred Dollars (\$500) per day, until such time as the Default is cured.

(c) In the event that Operator does not cure or resolve a Default of the requirement in Section 1(b) of this Exhibit within the timeframes established pursuant to Sections 21(c) or 24, liquidated damages in the amount of Seven Hundred Fifty Dollars (\$750) per day will accrue until the Default is cured by posting on its website a privacy policy compliant with Section 1(b) of this Exhibit.

4. SCOPE OF OBLIGATIONS

(a) For the avoidance of doubt, the obligations in this Exhibit are the minimum obligations that may be imposed on Operator by Tacoma Power pursuant to this IRU Agreement with respect to customer privacy. Operator must also comply with any other obligations it may have with respect to customer privacy, including but not limited to, obligations in any franchise agreements or in municipal, state or federal laws or regulations, as they exist as of the Effective Date, or as they may be adopted or amended in the future.

EXHIBIT J1
COUNCIL RESOLUTION REGARDING CUSTOMER PRIVACY

RESOLUTION NO. 39702

BY REQUEST OF MAYOR STRICKLAND AND COUNCIL MEMBERS CAMPBELL, IBSEN, AND MELLO

A RESOLUTION relating to protecting the privacy and security of Click Network! internet users.

WHEREAS, in 1997, the City, through its electrical utility, embarked on an effort to construct and operate a state-of-the-art telecommunication system for the benefit of its electric utility and electric utility customers, and

WHEREAS the telecommunications system (“Click! Network”) was constructed and has been in continuous operation since 1999, and WHEREAS Click! Network has entered into agreements with private internet service providers (“ISPs”) to use the Click! Network to provide internet services to approximately 25,000 retail customers, and

WHEREAS Click! Network and the ISPs have the ability to collect personal information resulting from their customers’ use of the internet, including (a) financial information; (b) health information; (c) information pertaining to children; (d) social security numbers; (e) precise geolocation information; (f) content of communications; (g) call detail information; and (h) web browsing history, application usage history, and the functional equivalents of either, from the users of their services, and

WHEREAS, in 2016, the United State Federal Communications Commission (“FCC”) proposed rules that would have required Click! Network and the ISPs to receive permission from their customers prior to collecting and selling such personal information, and

WHEREAS, on April 3, 2017, President Trump signed a United States congressional resolution that overturned the FCC internet privacy protections related to Click! Network and the ISPs collecting and selling personal information resulting from internet use, and

WHEREAS the Washington State Legislature has proposed legislation (“HB 2200 and SB 5919”) that would institute similar protections included in the prior FCC internet privacy rules; however, it is unlikely that such protections will be enacted into law before the current legislative session ends, and

WHEREAS protecting the privacy and security of Click! Network customers is of vital concern to the City Council, and the City Council desires that the Tacoma Public Utility Board (“Board”) prohibit Click! Network and its ISPs from collecting or selling their customers’ personal information without prior written permission, or refusing to serve customers who do not approve the collection or sale of their personal information;

Now, Therefore, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF TACOMA:

Section 1. That the City Council hereby requests that the Tacoma Public Utility Board ("Board") prohibit internet service providers (including Click! Network pursuant to an "All-In" Retail Business Plan) who have entered into agreements with Tacoma Power to use Click! Network from collecting or selling personal information from a customer resulting from the customer's use of the internet without express written approval from the customer.

Section 2. That the City Council hereby requests that the Board prohibit its internet service providers (including Click! Network pursuant to an "All-In" Retail Business Plan) from refusing to provide services to a customer on the grounds that the customer has not approved the collection or sale of the customer's personal information.

Section 3. That the City Council hereby requests that in the event that Click! Network is sold or leased, the prohibitions as set forth in Sections 1 and 2 above be included as condition of the sale or lease.

Section 4. That the prohibitions requested in this resolution shall remain in effect until such time as either the federal government or the state of Washington enacts the same or broader privacy and security protections for internet users.

EXHIBIT K NET NEUTRALITY

1. NET NEUTRALITY

(a) Consistent with its longtime policy and practice, Operator shall operate the Tacoma Power Commercial System on a net neutral basis. Specifically, Operator commits to operate the Tacoma Power Commercial System consistent with the following principles:

(i) Transparency: Operator will fully and publicly disclose accurate information about its services, including technical characteristics, performance characteristics, and network management practices, so consumers can make informed choices.

(ii) No throttling: Operator shall not impair or degrade lawful Internet traffic on the basis of Internet content, application, or service or use of a non-harmful device, subject to reasonable network management.

(iii) No blocking: Subject to reasonable network management, Operator shall not block lawful content, websites, resources, applications, services, or non-harmful devices.

(iv) No discrimination against lawful network traffic: All lawful traffic, including encrypted traffic, will receive similar treatment. No traffic will receive preferential treatment based on affiliation, the identity of the end user, the content of the information, the provider of content, or the type of service being provided.

(v) No paid prioritization: Operator shall not engage in paid prioritization. Paid Prioritization refers to the management of a network to directly or indirectly favor some traffic over other traffic, including through use of techniques such as traffic shaping, prioritization, resource reservation, or other forms of preferential traffic management either in exchange for monetary or other consideration from a third party, or to benefit an affiliated entity.

(vi) Reasonable network management is any practice that has a primarily technical network management justification, but does not include other business practices. A network management practice is reasonable if it is primarily used for and tailored to achieving a legitimate network management purpose, taking into account the particular network architecture and technology of the service.

(b) In furtherance of the requirements in Section 1(a), Operator agrees to conspicuously post and continuously maintain on its website a copy of its net neutrality policy.

2. ANNUAL CERTIFICATION AND PERIODIC TESTING

(a) On an annual basis, Operator shall by the Annual Reporting Date, provide the Tacoma Power Contract Administrator with a certification signed by a corporate officer certifying Operator's ongoing compliance with Section 1. Such certification shall include a copy of the policy posted on Operator's website.

(b) To confirm that Operator is operating the Tacoma Power Commercial System in compliance with Section 1, Tacoma Power may periodically test the Tacoma Power Commercial System for compliance.

Tacoma Power may also make unscheduled site visits to conduct on-site testing up to four times per year and Operator will grant access and opportunity to test on those occasions.

This report and the conclusions contained therein shall be presumptively conclusive as to this Disputed issue. The independent third party shall be mutually agreed to by the Parties and the parties shall equally bear the costs of such neutral third party. (iii) The aforementioned liquidated damages will accrue at an increased rate of Five Thousand Dollars (\$5,000) per week for every week thereafter where tests reveal the Tacoma Power Commercial System is still not in compliance with Section 1, until such time as Operator has achieved compliance and remains in compliance for twelve (12) consecutive weeks; provided that no liquidated damages will accrue or be payable for the twelve (12) consecutive weeks of compliance.

(d) If in the judgment of Tacoma Power the severity of the breach of Section 1 so warrants, Tacoma Power may perform a technical audit to review the Tacoma Power Commercial System at Operator's cost, in addition to or as an alternative to compliance testing.

GUARANTOR hereby irrevocably and unconditionally guarantees to TACOMA POWER the complete and timely performance, satisfaction and observation by OPERATOR of each and every term and condition of the IRU Agreement which OPERATOR is required to perform, satisfy or observe. In the event that OPERATOR fails to perform, satisfy or observe any of the terms or conditions of the IRU Agreement, GUARANTOR will promptly and fully perform, satisfy or observe them in the place of the OPERATOR. Without limiting the generality of the foregoing, GUARANTOR hereby guarantees prompt payment to TACOMA POWER of each and every sum due from OPERATOR to TACOMA POWER under the IRU Agreement, as and when due from time to time, and the prompt performance of every other task and duty required to be performed by the OPERATOR under the IRU Agreement.
2. GUARANTOR's Obligations Are Absolute. The obligations of the GUARANTOR hereunder are direct, immediate, absolute, continuing, unconditional and unlimited and, with respect to any payment obligation of OPERATOR under the IRU Agreement, shall constitute a guarantee of payment and not of collection, and are not conditioned upon the genuineness, validity, regularity or enforceability of the IRU Agreement.

If all or any portion of the obligations guaranteed hereunder are paid or performed, GUARANTOR's obligations

hereunder shall continue and remain in full force and effect in the event that all or any part of such payment or performance is avoided or recovered directly or indirectly from TACOMA POWER as a preference, fraudulent transfer or otherwise, irrespective of (a) any notice of revocation given by GUARANTOR or OPERATOR prior to such avoidance or recovery, or (b) payment in full of any obligations then outstanding. The GUARANTOR expressly subordinates and waives its rights to subrogation, reimbursement, contribution or indemnity with respect to performance by GUARANTOR of the obligations of OPERATOR guaranteed hereby, until such time as TACOMA POWER receives payment or performance in full of all such obligations.

This Guarantee is not limited to any period of time, but shall continue in full force and effect until all of the terms and conditions of the IRU Agreement have been fully performed by OPERATOR, and GUARANTOR shall remain fully responsible under this Guarantee without regard to the acceptance by TACOMA POWER of any performance bond or other collateral to assure the performance of OPERATOR's obligations under the IRU Agreement. GUARANTOR shall not be released of its obligations hereunder unless and until all of the following conditions have been met: (i) the IRU Agreement is terminated; (ii) all obligations that survive termination of the IRU Agreement as set out in Section 21(f) have been fully performed by OPERATOR; and (iii) there are no claims by TACOMA POWER against OPERATOR arising out of the IRU Agreement based on OPERATOR's failure to perform which have not been settled or discharged.

In addition to the amounts guaranteed under this Guarantee, GUARANTOR agrees to pay actual attorney's fees and all other costs and expenses incurred by TACOMA POWER in enforcing this Guarantee, or in any action or proceeding arising out of or relating to this Guarantee, including any action instituted to determine the respective rights and obligations of the parties hereunder.
