WAYS TO  
REDUCE YOUR  
ENERGY USE

# Evaluating your business's energy use is easy.

**WE HAVE EXPERTS TO HELP YOU.**

**We know energy use.** We know what to look for to make your facilities energy efficient. We know how to detect patterns or changes in your energy use. And best of all, we'll give you recommendations for reducing your electric bill.

## Put us to work.

- 1** Call or email us to set up your FREE, no obligation, Energy Use Assessment.
- 2** You'll receive an Energy Use Assessment and electric bill review.
- 3** We recommend energy efficiency options and explain which rebates apply.
- 4** Lastly, our team will help you start your energy efficiency project.

## Energy assessments can bring savings to your bottom line.

You'll be on your way to a more energy-efficient business and lower bills after your free walk-through assessment and electric bill review. We even offer rebates to make your energy-saving improvements as affordable as possible.

## Why receive an Energy Use Assessment?

- Obtain a detailed two-year summary of electricity use
- Determine use patterns that impact your electric bill
- Discover opportunities to save money
- Get professional help with any energy efficiency improvements
