Purpose

Tacoma Public Utilities' highest priority is providing safe and reliable power, water, and rail services that meet or exceed customer needs over the long term (20 to 60 years).

Outcomes

1. Long-term resource plans that fairly estimate customer trends and requirements and contemplate the universe of practicable alternative sources of power, water and rail services considering the likely progression of business and technology advancement.

2. Long-term resource plans that reflect changing legal and regulatory requirements that have direct or indirect influence on resource alternatives.

3. Long-term resource plans that are broad based and unbiased, derived from comprehensive “best practices” analyses that take into account current utilities industry conditions and predictable trends in addition to future uncertainties and risks including those associated with climate change.

4. Long-term resource plans that incorporate input from customers, stakeholders and other relevant sources.

5. Work product that is written in a way the general public can comprehend while also providing transparency through technical documentation for those interested in the details.

Measurements

1. All operating divisions: Progress toward action items identified in long range plans.

Reporting

1. Integrated resource plans for power every two years and every six years for Water.
2. Comprehensive rail service “futures” plan every two years. The first document will be developed as a component of Rail’s strategic planning process, which will begin in Q4 2020.
3. Annual report of anticipated changes in integrated resource planning, issues and opportunities.
