### Purpose

Tacoma Public Utilities (TPU) is dedicated and committed to comprehensive and sustained transformation of systems, policies, practices, and contracts impacted by systemic racism.<sup>1</sup> TPU, using Racial Equity Action Plans, will put the theory of change into action to achieve a collective vision of racial equity.

Racial equity plans will have three goal areas:

- 1) Workforce reflects the communities we serve;
- 2) Purposeful community outreach and engagement;
- 3) Equitable service delivery to all customers.

Through this Guiding Principle, the Public Utility Board directs the Director of Utilities to:

- Keep anti-racism as a top priority in the process of budget development and prioritize anti-racism in planning for utility modernization; and
- Prioritize anti-racism in the evaluation of new policies and programs as well as the sustained and comprehensive transformation of existing services; and
- Work with the Public Utility Board to build a legislative platform at the local, state, and federal level that transforms those impacted by systemic racism for the greater equity and wellbeing of all customers of Tacoma Public Utilities.

## **Measurement**

1. Workforce: The Human Resources Department track and trend the ethnic, racial, and gender makeup of potential and actual TPU employees for recruitment, workforce, and retention relative to the population in Pierce County. TPU will use annual trends to drive priorities and actions to promote diversity and inclusion. Data to be tracked and monitored includes:
  - a. Annual employee demographic data by ethnicity, race, and gender;
  - b. Executive and Senior Leadership demographic data by ethnicity, race, and gender;
  - c. Demographic data by ethnicity, race, and gender of interns;
  - d. The funding and/or headcount designated to TPU tasked with doing DEI work.
2. Culture: Belonging is a basic human need that affects personal and work satisfaction. An organization that engages the full potential of the individual, where innovation thrives, and views, beliefs, and values are integrated contributes to a sense of belonging. TPU will track and trend data to measure overall employee experience. The data will be stratified to track and trend experience by ethnic, race, and gender makeup:

<sup>6</sup> Targeted universalism means setting universal goals pursued by targeted processes to achieve those goals. Within a targeted universalism framework, universal goals are established for all groups concerned. The strategies developed to achieve those goals are targeted, based upon how different groups are situated within structures, culture, and across geographies to obtain the universal goal. Targeted universalism is goal oriented, and the processes are directed in service of the explicit, universal goal.
