# Make energy efficiency part of your construction plans.

## WE HAVE EXPERTS TO HELP YOU.

**We know energy efficiency.** We can help make your new building energy efficient while it's in the planning stages. We know the best products and equipment to consider. And best of all, we offer rebates and incentives that help put everything within reach.

### Put us to work.

- 1** Call or email us during the design and planning stages of your business to discover how you can save costs through energy efficiency.
- 2** We'll help you determine which energy efficiency options best fit your business needs.
- 3** We will help you with the rebate application.
- 4** Lastly, our team will close out project details and issue your rebate.

### Plan now. Save later.

Planning for energy efficiency before you build provides the greatest opportunity to save on upfront costs and future electric bills.

### Rebates and incentives

#### Custom incentives:

- Lighting (fixtures, lamps and controls)
- Mechanical systems
- Building shell insulation and window glazing

#### Specific equipment:

- Air conditioning
- Heat pumps
- HVAC

#### Design team incentives:

- Additional incentives are available for building designers and owners whose projects save 25% or more beyond the Washington State Energy Code.

\* Program requirements and rebate amounts are subject to change without notice. Tacoma Power does not endorse any particular contractor, manufacturer or product and makes no express or implied warranties of the same.
