Re: Tacoma Water 2018 Water System Plan Available for Review

Dear Mr. Wadsworth:

Tacoma Water has completed a draft of the water system's 2018 Water System Plan (WSP) update, and is preparing to submit a copy to the Washington State Department of Health (DOH), Pierce County, and King County for approval. Tacoma Water is required to notify adjacent water systems that the draft 2018 WSP update is available for review, as well as wholesale water customers and Second Supply Partners.

This 2018 WSP is an update to the last plan adopted by Tacoma Water in 2006. Tacoma Water's 2018 WSP update includes (but is not limited to): an updated demand forecast for the system out to 2037, analysis of distribution system deficiencies and necessary improvements, description of changes made to the system since the last WSP such as adding the Green River Filtration Facility, review of watershed conditions in relation to water quality, overview of the system's asset management program, and a capital improvement program and financial plan through 2026.

Tacoma Water has posted a copy of the draft 2018 WSP on its website:
MyTPU.org/WaterSystemPlan

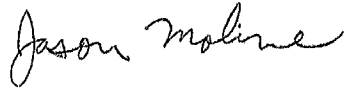

A printed and bound copy of the draft 2018 WSP is also available for review at the Tacoma Public Utilities office. If requested, Tacoma Water can mail an electronic copy of the draft WSP in a CD.

Comments or questions on the draft 2018 WSP update can be submitted in writing until June 22, 2018, by email or regular mail to the address below:

Jason Moline
3628 S 35th St
Tacoma, WA 98409
jmoline@ci.tacoma.wa.us

Tacoma Water plans to finalize the 2018 WSP in July after incorporating comments from DOH, counties, public, local agency, and adjacent water systems, as appropriate. Tacoma Water appreciates your input and interest in its water system plan.

Sincerely,

A handwritten signature in black ink that reads "Jason Moline". The signature is written in a cursive, flowing style.

Re: Tacoma Water 2018 Water System Plan Available for Review

Dear Mr. Close:

Tacoma Water has completed a draft of the water system's 2018 Water System Plan (WSP) update, and is preparing to submit a copy to the Washington State Department of Health (DOH), Pierce County, and King County for approval. Tacoma Water is required to notify adjacent water systems that the draft 2018 WSP update is available for review, as well as wholesale water customers and Second Supply Partners.

This 2018 WSP is an update to the last plan adopted by Tacoma Water in 2006. Tacoma Water's 2018 WSP update includes (but is not limited to): an updated demand forecast for the system out to 2037, analysis of distribution system deficiencies and necessary improvements, description of changes made to the system since the last WSP such as adding the Green River Filtration Facility, review of watershed conditions in relation to water quality, overview of the system's asset management program, and a capital improvement program and financial plan through 2026.

Tacoma Water has posted a copy of the draft 2018 WSP on its website:
MyTPU.org/WaterSystemPlan

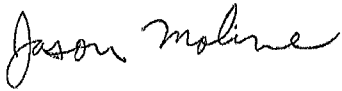

A printed and bound copy of the draft 2018 WSP is also available for review at the Tacoma Public Utilities office. If requested, Tacoma Water can mail an electronic copy of the draft WSP in a CD.

Comments or questions on the draft 2018 WSP update can be submitted in writing until June 22, 2018, by email or regular mail to the address below:

Re: Tacoma Water 2018 Water System Plan Available for Review

Dear Mr. Bauer:

Tacoma Water has completed a draft of the water system's 2018 Water System Plan (WSP) update, and is preparing to submit a copy to the Washington State Department of Health (DOH), Pierce County, and King County for approval. Tacoma Water is required to notify adjacent water systems that the draft 2018 WSP update is available for review, as well as wholesale water customers and Second Supply Partners.

This 2018 WSP is an update to the last plan adopted by Tacoma Water in 2006. Tacoma Water's 2018 WSP update includes (but is not limited to): an updated demand forecast for the system out to 2037, analysis of distribution system deficiencies and necessary improvements, description of changes made to the system since the last WSP such as adding the Green River Filtration Facility, review of watershed conditions in relation to water quality, overview of the system's asset management program, and a capital improvement program and financial plan through 2026.

Tacoma Water has posted a copy of the draft 2018 WSP on its website:
MyTPU.org/WaterSystemPlan

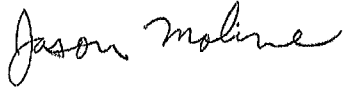

A printed and bound copy of the draft 2018 WSP is also available for review at the Tacoma Public Utilities office. If requested, Tacoma Water can mail an electronic copy of the draft WSP in a CD.

Comments or questions on the draft 2018 WSP update can be submitted in writing until June 22, 2018, by email or regular mail to the address below:
