- Identify the cost of your project and estimate the annual energy savings that would result. Our staff is available to assist you with your calculations. You also may have a contractor help you gather this information.
- Complete the required loan application (see Application Checklist) and return it.
- A credit review is conducted by, an independent commercial loan underwriter.

- Tacoma Power notifies the customer about the committee's decision.
- Tacoma Power prepares loan documents for the customer to review. Closing arrangements are made.
- Tacoma Power notifies the customer when the loan is closed so the project can proceed.

NOTE: You must apply for the loan before your project is completed. If you install measures before your loan is approved and closed, you may be responsible for the costs if your loan is not approved and closed.

Loan disbursement does not take place until the project is completed and signed off by the assigned Tacoma Power staff.

Loans are not assumable.
