

Net Metering Application for Interconnecting a Generating Facility No Larger than 100 kW

This Application is considered complete when it provides all applicable and correct information required below. Additional information to evaluate the Application may be required.

An electrical permit is required for system installation

Interconnection Customer

Name: _____

Contact Person: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone (Day): _____ (Evening): _____

Fax: _____ email address: _____

Contact (if different from Interconnection Customer)

Name: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone (Day): _____ (Evening): _____

Fax: _____ email address: _____

Owner of the facility (include % ownership by any electric Utility): _____

Generating Facility Information

Location (if different from above): _____

Electric Utility Company: _____

Account Number: _____

Inverter Manufacturer: _____ Model _____

Interconnection inverter must be UL 1741 Listed. Is the inverter UL1741 Listed? Yes ___ No ___
Attach manufacturer's cut-sheet showing UL1741 listing.

Inverter Nameplate Rating: _____ (kW) _____ (kVA) _____ (AC Volts)

Single Phase _____ Three Phase _____

Solar Module Manufacturer: _____ Model _____

Solar Module Nameplate Rating: _____ (Watts) _____ (Volts)

System Design Capacity: _____(kW)_____ (kVA)

Generation type: Photovoltaic _____ Reciprocating Engine ___ Fuel Cell___Turbine___Other _____

Energy Source: Solar ___ Wind ___ Hydro ___ Diesel ___ Natural Gas ___ Fuel Oil ___

Other (describe) _____

Is This a System Upgrade? Capacity: _____(kW)_____ (kVA)

In this section, please include information on system upgrades – for example, adding modules to existing solar installations. Please clearly describe the new equipment being added. Clarify the existing system, the new equipment and a description of the final system including: **the total Wattage capacity of the modules and inverters.**

Generation type: Photovoltaic _____ Reciprocating Engine ___ Fuel Cell___Turbine___Other _____

Energy Source: Solar ___ Wind ___ Hydro ___ Diesel ___ Natural Gas ___ Fuel Oil ___

Other (describe) _____

Description of added (new) equipment _____

Estimated Installation Date: _____ **Estimated In-Service Date:** _____

Electrical schematic drawing must be included. Please include provisions and show the location for the required lockable visible disconnect.

List key components – solar modules and inverters - of the Generating Facility equipment package that are currently certified:

Equipment Type	Certifying Entity
1. _____	_____
2. _____	_____
3. _____	_____
4. _____	_____
5. _____	_____

Interconnection Customer Signature

I hereby certify that, to the best of my knowledge, the information provided in this Application is true. I agree to abide by the Terms and Conditions of the Net Energy Metering Interconnection Agreement for an Inverter-Based Small Generating Facility No Larger than 100 kW.

Signed: _____

Print name: _____

Title: _____ Date: _____
